I enjoy building products that enable people to **become more thoughtful and productive**, and am interested in organizations that value design's role in **creating a better future for our communities**.

Experience

Senior Product Designer

Bonterra | Aug 2023 - Present

The world's second-largest social good software company

- Leading the design of a new data reporting platform enabling users to access analytics and insights across Bonterra's suite of products
- Designed data mapping functionality for a case management platform, allowing customers to report on standardized data across large organizational networks
- Defining accessible and reusable patterns and guidelines for a leading case management tool
- Crafting design guidelines and research best practices on components, AI, etc.
- Led the design of a new self-service platform for large-dollar fundraisers
- Led the redesign of an existing non-profit data reporting and analysis capability

Product Designer

SINAI Technologies | May 2022 - Mar 2023

Climate startup building carbon accounting and emissions abatement software

- Led end-to-end redesign of key features of the core product, including mapping user flows, building information architecture diagrams, and creating low- and high-fidelity designs
- Worked with product management to define scopes of work and prioritize features for MVP and later releases

Senior Product Designer

Amount | November 2020 - April 2022

Fintech startup offering banks a white-label tool to provide online financing options

- Led the design of Merchant Portal, a platform enabling retailers to manage the end-to-end customer order experience, including dispute management, purchase/shipping status, and financial settlements

Senior Interaction Designer

IA Collaborative | July 2018 - July 2020

Design consultancy providing organizations research, strategy, and design services

- Designed and tested concepts for customer-facing desktop and mobile experiences for clients in the investing and shipping and logistics industries

User Experience Designer

SAP | July 2016 - June 2018

Global enterprise software firm

- Lead UX designer of data analytics components and design guidelines for a joint iOS design system from SAP and Apple
