I enjoy building products that enable people to become more thoughtful and productive. I'm interested in organizations that value design's role in creating a better future for our communities.

Work Experience

Bonterra — Senior Product Designer

August 2023 - Present

- Leading the design of a new data reporting platform enabling users to access analytics and insights across Bonterra's suite of products
  - **Design outcome:** Eliminated unnecessary steps and revamped unclear navigation patterns from a core feature, producing intuitive, self-serve flows
- Designed data mapping functionality for a case management platform, allowing customers to report on standardized data across large organizational networks
- Defining accessible and reusable patterns for a leading case management tool
- Crafting design guidelines and research best practices on components, AI, etc.
- Drove the design of a new self-service platform for large-dollar fundraisers
- Led the redesign of an existing non-profit data reporting and analysis capability

SINAI Technologies — Product Designer

May 2022 - March 2023

- Owned the end-to-end redesign of key features of the core product, including mapping user flows, building information architecture diagrams, and creating low- and high-fidelity designs
- Worked with product management to define scopes of work and prioritize features for MVP and later releases

Amount — Senior Product Designer

November 2020 - April 2022

- Spearheaded the design of Merchant Portal, a platform enabling retailers to manage the end-to-end customer order experience, including dispute management, purchase/shipping status, and financial settlements
  - **Design outcome:** Built a comprehensive solution for a key, but underserved, user group to streamline their work while extending Amount's product line

IA Collaborative — Senior Interaction Designer

July 2018 - July 2020

- Designed and tested concepts for customer-facing desktop and mobile experiences for clients in the investing and shipping and logistics industries

SAP — User Experience Designer

July 2016 - June 2018

- Lead UX designer of data analytics components and design guidelines for a joint iOS design system from SAP and Apple
