Northern Virginia
Science Center Foundation

Annual Corporate Partner Program

2026-2027

The Northern Virginia Science Center Foundation is a 501(c)(3) nonprofit organization which operates the Children's Science Center Lab in Fairfax and is leading the campaign to build the Northern Virginia Science Center in Sterling.

children's science center™ | LAB

MISSION TODAY: to inspire a love of learning STEM by providing unique opportunities to explore and create.

The Children's Science Center is an interactive Lab where children and families explore STEM through fun and engaging hands-on activities. Additional content is delivered through community programs at schools, libraries, and festivals across Northern Virginia.

Northern Virginia Science Center

VISION TOMORROW: to create a world-class, interactive science center that ignites the curiosity in all of us.

Northern Virginia Science Center Foundation in partnership with the Science Museum of Virginia, is well underway with Launch the Future, a campaign to build the Northern Virginia Science Center. With substantial public and private support from partners across the region, this project fulfills the long-held vision for a world-class, interactive science center in our region. The Science Center is expected to serve over 300,000 curious minds of all ages each year.

Science Brings Infinite Possibilities

Become an Annual Corporate Partner to inspire tomorrow's innovators, today!

Spark Interest in Science, Technology, Engineering, and Math (STEM) for All

The Science Center delivers highly engaging interactive programs at the Children's Science Center Lab and through our community outreach across the region. These experiences develop children's critical thinking skills and inspire curiosity for science and the world around them. To ensure equity of access to STEM, the Science Center offers subsidized programs to Title I elementary schools and a diverse group of social service partners.

Develop Future STEM Leaders

Through our Youth Development Initiative, the Science Center offers unique opportunities for high school and college-aged students to build and apply 21st century skills in a science museum setting. By serving on our Youth Advisory Board or participating in our internship program, these young adults receive valuable mentorship and experience from industry leaders.

Build Stronger Communities

Raising generations of STEM-literate and inspired citizens, regardless of background, is key to solving present and future challenges. Cultivating a lifelong love of STEM learning requires the collaboration of a wide cross-section of our community. The Science Center plays a critical role by connecting STEM resources across schools, homes, higher education, and industry.

FY2025 Impact

Served over **50,839** visitors with hands-on STEM

Provided **10,006** scholarships to those in need

Distributed **1,325** STEM Kits to underserved children

Engaged **32,781** visitors at the LAB
