Basket Weaving Workshop with the traditional „Palmito"

This workshop teaches the ancient Mallorcan technique of basketry. The artisans of the island use the palm leaves for their work. This traditional Mallorcan craft is known as Llatra. The unaccustomed tranquility of this handicraft work is immediately transferred to the mind, relaxes the spirit and any daily stress is instantly forgotten. Master craftswoman Aina Pistola is already looking forward to sharing this passion with you.

Yin Yoga & Sound Healing

Yin Yoga fuses the practice of Hatha Yoga and traditional Chinese medicine. It invites us to slow down, to observe ourselves during the stay in each posture and brings us to face our own discomfort. Combining yin yoga with the magic of music and the vibration of sound, this inner journey deepens, transforming the encounter with oneself into a unique and personal experience.

Mindful Art Workshop

A morning where you're invited to slow down, reconnect with yourself, and let creativity flow effortlessly in the calming embrace of the Mallorcan countryside beauty.

Our art therapy workshop offers just that – a serene space to explore your inner world through colors and textures.

This is a chance to release emotions, discover new insights, and let go of whatever you no longer need; all while surrounded by the soothing beauty of nature.

Led by an art therapist and visual artist Mel Saulek, this experience will hold space for reflection, self-discovery, and connection.

Whether you're looking to unwind, tap into your creativity, or enjoy a mindful moment, you'll leave feeling lighter, more centered and deeply inspired.

Join us, and let your imagination carry you to healing and peace.

Conscious Walk to the Viewpoint at Sunrise or Sunset

Walk through the forest to the window of nature where you will discover wonderful views and greet the sun in a meditation exercise.

Important: closed comfortable shoes and good physical fitness are needed. The level of this hike is **medium-high**.

Breathwork Therapy & NLP

Discover a unique, deep, and powerful breathing technique — unlike anything you've experienced before.

Through conscious connected breathing, combined with powerful NLP (Neuro-Linguistic Programming) tools, you will release accumulated stress, regulate your nervous system, and awaken a renewed sense of mental clarity.

This practice activates the body's natural detoxification processes, revitalizes your vital energy, and clears physical, mental, and emotional blockages.

Experience a transformative journey that relaxes your body, reprograms your mind, and reconnects you with your true sense of well-being.

Healthy Group Training

What better way to start the day moving and connecting with yourself. The Healthy Group Training offers us a full-body workout to exercise the whole body adapting to the level of each person.

60 minutes sessions that include:

– warm-up and activation phase,
– main part,
– cool down and stretching.

Sound Therapy

Come and enjoy a concert of harmonic vibrations, where all you have to do is lie down and allow yourself to receive.

Stefan will play his instruments, which will allow you to enter a state of deep relaxation thanks to the vibrations emitted.

A gift for the soul.

Ka'alele Au
The Hawaiian Art of Moving Meditation

Step into a unique journey of renewal with Ka'alele Au, the sacred "Flight of the Navigator" rooted in ancient Hawaiian healing. In this gentle one-hour practice, guided by fluid movement and deep breath, you'll reconnect with your inner rhythm, clear energetic tension, and awaken a sense of freedom and calm.

Set against the tranquil backdrop of our natural sanctuary, this moving meditation invites you to feel, flow, and realign—body, mind, and spirit.

Join us for your first Ka'alele Au Session. Move with grace. Breathe with aloha.

Come home to yourself.

Creation of a handmade Dreamcatcher

Enjoy a moment of peace to create your own dreamcatcher... Claudia, craftswoman of wicker and natural fibre creations, will guide you in this unique and original creation. A little bit of dream to take home with you!

Discover our ecological „Finca"

Es Racó d'Artà is a living landscape where agriculture (including our friendly donkeys, bees and chickens), heritage, and biodiversity coexist purposefully. Olive tree fields, our extensive vineyards, dry-stone walls, and old wells from the Bereber settlements remain untouched, revealing the rhythm of the land as it has unfolded for generations.

This tour is designed to meet this landscape and learn how the roots of Es Racó are intimately connected to the soil as well as the water cycle, the basis and origin of our philosophy. Each harvest, all products we purchase and every action we take is closely related to our circularity plan.

Pranayama (Breath Regulation) and Meditation

Dive into the classical Pranayama from the Kaivalyananda tradition to enhance the life force (Prana), energising the body and heal the respiratory system.

Then conclude the session with a guided meditation to obtain the peace and harmony in the mind, body and spirit.

MyoYin – Myofascial Release

MyoYin is a practice that combines the physiotherapy technique of myofascial release and yin yoga postures, using balls at specific points to release tension in the myofascial groups allowing deep relaxation and hydration of the tissues. Improves flexibility and range of motion, reduces muscle tension, increases body awareness, fluidity in the body and energy flow.

Contraindications: recent injury, open wounds, fracture healing, fibromyalgia, aneurysm, herpes zoster, acute rheumatoid arthritis, severe osteoporosis, pregnancy, urticaria, varicose veins, use of anticoagulant medication, burns, brittle bones.

Facial Self-Massage and Self-Care Ritual

Embark on a transformative self-care journey guided by Martina, our facial therapist, expert in massage and non-invasive lifting.

Experience the power of facial self-massage with a meticulously designed protocol that helps firm, oxygenate, relax and illuminate your face and to release tension in the jaw and neck. Martina will walk you through the importance of this daily ritual.

The Yoga Styles we offer:

VINYASA YOGA is known for its dynamic sequences, which are called “flows”. The exercises are performed in harmony with the breath, with each inhalation and exhalation connected to a movement. Vinyasa Yoga strengthens the muscles, improves flexibility and promotes body awareness. By focusing on breathing and flowing movements, Vinyasa Yoga can reduce stress and lead to greater relaxation.

YIN YOGA is a calm and passive style of Yoga characterized by long holds of the asanas (positions). The asanas are held for several minutes, often 2-5 minutes or longer, to reach deeper layers of tissue. The muscles are left largely relaxed, while gravity and time provide the stretch. The focus is on stretching and stimulating the connective tissue to improve flexibility and mobility. Yin Yoga promotes mindfulness and relaxation as you focus on the present moment and become aware of the sensations in your body.

HATHA YOGA is one of the oldest and best-known Yoga traditions. The term “Hatha” is composed of the Sanskrit words ‘ha’ (sun) and “tha” (moon) and symbolizes the duality of energy and relaxation, activity and rest. The goal of Hatha Yoga is to balance these two energies in the body in order to achieve a sense of harmony and well-being. Breathing exercises direct the life energy (prana) and promote a deeper understanding of the connection between breath and mind. Hatha Yoga integrates meditation to train concentration and achieve inner peace.
