Robinia Agility Trail with Pyramid Nets

Materials & Construction

Posts & beams: Robinia hardwood
Climbing: Rope pyramid and star nets
Balance: Zig-zag and Y-shaped balance beams, a swinging log bridge and rope crossings
Stepping: Stepping posts and log steps
Foundations: Posts set in the ground in concrete (about 25 kg per hole)

With a free-fall height under 1.0 m, BS EN 1176-1 allows grass or turf, or any EN 1177 impact-absorbing surface. We'll recommend the right finish for your site.

How to Use

Beams & crossings

Children walk the zig-zag and Y-shaped beams, step across posts and logs, and cross the swinging log bridge and rope crossings.

Benefits:

Builds balance, coordination and confidence.

Nets

Rope pyramid and star nets along the trail add low climbing challenges that groups can share.

Benefits:

Develops strength, grip and cooperative play.

Inspection & Maintenance

Routine visual check weekly (daily on busy or vandal-prone sites), an operational check every 1–3 months and a main inspection once a year. Check ropes and nets for wear, fixings for tightness and timber for splits around fixings. Replace worn or damaged parts promptly with genuine spares. Morti Sport & Play offers annual inspection and maintenance for school and public sites.

Why Choose This Product

A 25 m Robinia agility trail of balance beams, rope crossings, stepping posts and low pyramid nets. With a free-fall height under 1.0 m it can go on grass, and it suits children from age 1 upwards.

- Long, flowing trail of beams, crossings, posts and nets
- Free-fall height under 1.0 m, so it can go on grass
- Robinia hardwood: naturally durable, no preservatives needed
- Designed, supplied and installed by Morti Sport & Play's own teams
