Technical Specifications

Build Height with 4-hole adapter	2.14” /54.5 mm (Uncompressed)
Build Height with lamination plate	1.98” /50.5 mm (Uncompressed)
Vertical Compression	Up to 4 mm
Kinn Unit Weight	0.99 lb / 450 gram
Platform Diameter	66 mm
Lamination Plate Diameter	72 mm
Tube Length	8ft (tube for single cable)
Tube Outer Diameter	4 mm (tube for single cable)
Cable Weight Rating	900 lb / 400 kg
Cable Length	8ft
Patient Weight Limit	220 lb / 100 kg
Shock Absorber, Soft Rating	100 lbs to 200 lbs
Shock Absorber, Medium Rating	200 lbs to 220 lbs
Recommended L-codes	L-5783 (Addition to lower extremity, user adjustable, mechanical, residual limb volume management system), L-5988 (Addition to lower limb prosthesis, vertical shock reducing pylon feature)
