### Virtuele server details

**Domein**
nomadslife.com

**Alternatief adres** ⓘ
www.nomadslife.com.uvirt48.active24.cz

**IP-adressen**
81.95.101.5 ⓘ
2a02:4a8:ac24:117::101:5 ⓘ

The website nomadslife.com is pointed to this server (81.95.101.5)

Questions:
- Can we use the nomadslife server (81.95.101.5) for pointing a new subdomain shop.borealisproject.nl ?
- If yes, should we add a subdomain in the DNS with IP (81.95.101.5)?
- Can we create a map 'borealisprojectshop' in the server (81.95.101.5)?

When above = true:
- We will put PrestaShop files in /borealisprojectshop
- How can we browse to the files in the /borealisprojectshop folder?
