A Few Clarifications Before We Conclude

DO YOU ACTUALLY UNDERSTAND OUR INDUSTRY?

We've delivered across fintech, professional services, real estate, SaaS, and more. We learn your business properly in discovery, so the work is built around your market, not a template.

DO YOU HANDLE THE STRATEGY OR JUST THE EXECUTION?

Both. We start with strategy, understanding your goals, audience, and market. Then we execute against it. We don't run campaigns blind. Every action ties back to a plan.

CAN YOU TAKE OVER OUR EXISTING CAMPAIGNS AND ACCOUNTS?

Can you take over our existing campaigns and accounts? Yes. We can audit and take over existing ad accounts, social profiles, and listings. You keep full ownership of your accounts, and we step in to manage and improve performance.

WHAT HAPPENS AFTER THE SITE GOES LIVE?

We don't disappear. You get a handover portal, full ownership of everything, and the option of ongoing support. The site is yours, and we're here if you need us.

HOW DO CONTRACTS AND CONFIDENTIALITY WORK?

No lock-in. Project-based agreements, optional retainers, and we'll sign an NDA before briefing. We keep clients through our work, not our contracts.
