GOETZE dental | Pearl

Second Opinion®

AI-powered radiology for smarter dental diagnosis and case presentation.

- Detect more disease
- Increase case acceptance
- Guaranteed ROI

AI Caries

Dentin	86%
Enamel	14%

Higher diagnosis & production rates

Pearl offers the widest array of AI detection, clinical annotation and case presentation tools to enhance the value of every x-ray captured.

More compelling case presentations

Pearl delivers AI results seconds after x-rays are captured, ensuring efficient and productive chairside review & case presentation.

Clear reporting for patients & payers

Downloadable patient take-home, insurance evidence and morning huddle reports make sharing AI findings easy.

Easy, cloud-based imaging integration

Intuitive, cloud-based AI integration is a breeze – and untethers your imaging workflow for instant imaging access anywhere.

Practice Intelligence® with Precheck™

A complete PMS-integrated dental AI toolset to unleash practice performance

More same-day dentistry

Anticipate treatment needs before your patients arrive for more efficient chair time, team-wide alignment and daily production.

More productive recall

AI-guided patient recall strategically targets patients with the most urgent clinical needs so your practice and patients can thrive.

Smarter staffing & procurement

Spot practice-wide clinical trends to ensure you always have the team, equipment, and supplies to cater your patients' needs.

Better insurance verification

Multi-source verification with comprehensive breakdowns save you time and tailor treatment plans to patient coverages.
