Introduction

ON CHEMIN DES AMOUREUX IN SAINT-TROPEZ, HOTEL VENTURA DROPS ANCHOR JUST MINUTES FROM PLACE DES LICES, THE LOCAL MARKET, AND THE SAILS OF THE OLD PORT.

NINETY-SEVEN ROOMS FACING THE HORIZON AND SOME OF THE MOST BEAUTIFUL SUNSETS IN THE WORLD. AND A FULL IMMERSION INTO THE SPIRIT OF SAINT-TROPEZ AND PROVENÇAL CULTURE.

Saint-Tropez a destination, more than an address

EXTERIOR VIEW

An eternal backdrop of light and freedom, Saint-Tropez is a village that lives to the rhythm of the sun, the sea breeze, and a joyful art de vivre envied the world over. Golden beaches lined with pines, fragrant Provençal alleyways, lively restaurants, art galleries, colorful markets… Everything here vibrates with life. In the morning, the pastel façades of the port reflect on the turquoise water; in the evening, the sails of the boats turn gold and pink, as if the light itself were writing a story.

In the heart of this legendary setting, 450 meters from the Old Port and a five-minute walk from Place des Lices, *Hotel Ventura* sets sail. Nestled on Chemin des Amoureux — a name straight out of a novel — the hotel enjoys one of the most coveted locations in the village: close enough to the vibrant Tropezian bustle to slip into it in just a few steps, yet slightly withdrawn to offer a peaceful, almost secret retreat.

A landmark of the 1970s, *Ventura* now reveals its new silhouette. Entrusted to local architect Vincent Coste, the building embraces a contemporary style inspired by nautical design. Its façades, structured with metal elements, recall modern vessels; light glides across them like a wave, sketching a choreography of shadows and reflections.

On each floor, terraces open like suspended balconies over the Mediterranean. The thin, airy pergolas echo the sails dancing in the neighboring port.

The spirit of cruising is everywhere : elegant, modern, sun-kissed, giving Ventura its distinctive character

A hotel deeply rooted in Saint-Tropez yet open to the horizon, faithful to the village's free spirit and to the heritage of its namesake, the traveler Jean-Baptiste Ventura.

Saint-Tropez is not merely a place. It is a promise. And at *Ventura*, the journey begins the moment you arrive.

Hotel Ventura, the soul of Saint-Tropez

THE RECEPTION & THE LOUNGE

THE RESTAURANT

A vibrant homage to the 1970s, *Hotel Ventura* reinvents Tropezian aesthetics in a contemporary, joyful, and sunlit expression. Designed by the architects Giros & Coutellier, the décor of the common areas evokes a **retro-chic atmosphere** that captures the festive elegance of Saint-Tropez.

From the bar to the lounges, from red stripes to terracotta fabrics, from lemon-yellow armchairs to subtle maritime touches — each space conjures a scene of dolce vita. The ambiance is enriched by a curated collection of artworks by local artists, including photographs of Saint-Tropez, contemporary works inspired by the Riviera, and original paintings. Each piece anchors the hotel in its surroundings while infusing it with energy and authenticity.

Opening onto **Mediterranean vegetation** made of palm trees and local flora, *Ventura* offers a rare breath of fresh air just steps from the port. The hotel stands at the heart of Saint-Tropez, in one of its most sought-after neighborhoods—close to everything yet blissfully shielded from the hustle.

Hotel Ventura joins the *Tapestry Collection by Hilton*, a global collection of 150 hotels — each telling a unique story through art, architecture, design, gastronomy, and deeply local spirit.

Opening in April 2026, the hotel will bring Saint-Tropez a **singular four-star** address: both vibrant and serene, rooted in the village yet open to elsewhere.

With 97 rooms ranging from 21 to 30 m², *Hotel Ventura* offers spaces imagined as modern cabins: **bright, open to the outdoors**, and infused with Tropezian charm. Their design — also by Giros & Coutellier — extends the retro-chic spirit of the hotel's common areas.

Rounded shapes and gentle curves sculpt a fluid, almost wave-like atmosphere. Natural materials and warm tones evoke the textures of an endless summer. Subtle nautical details recall the world of sailboats and the closeness of the Mediterranean. Each room offers an intimate scene of yesterday's and today's Saint-Tropez: a blend of glamorous nostalgia and contemporary comfort.

All rooms feature a private **terrace** of at least 10 m² — perfect for outdoor breakfast, sunset watching, or simply letting the sea breeze in. Views overlook the **Mediterranean garden** or **the maritime horizon**.

A light, summery pause to savour before the evening unfolds.

VENTURA ST. TROPEZ

The vibrant heart of the hotel, Ventura's Bar sets the mood with music and opens its indoor and outdoor spaces to the best of Mediterranean cuisine.

Bathed in sunshine, the cocktail menu draws inspiration from classic Provençal recipes, crafted with carefully selected ingredients. Champagne is served at any hour. Fine wines from Provence pair perfectly with Mediterranean dishes. And for a gentle moment of relaxation, the house offers seasonal detox and energising drinks, prepared with local products.

Designed for sharing, the menu highlights *tapas*, *mezzes*, and boards featuring Provençal flavors.
Festive spirit lingers around oysters and champagne. In summer, an ice cream cart elevates local flavors : olive oil, rosé, *Menton* lemon…
