8 Ways to Eliminate Paper and Drive Operational Efficiencies

We set the standard for Karmak Fusion integration with our AP Automation solution. Whether you're ready for full AP Automation or just need to solve a paper problem, you can take advantage of our full-featured enterprise content management platform with automated data entry and electronic forms. Large volumes of paper and electronic documents accompany every business transaction. Give your team instant access to applicable files from within the Karmak Fusion application.

DocStar ECM Essentials for Karmak Fusion

Selectively start with one or more Use Cases and begin eliminating paper today!

1 Finance Documents

AP invoices, W9, 1099, expense reports, credit card reconciliation, etc. can be imported and easily indexed for quick retrieval.

2 Repair Orders

Service/work orders can be scanned or imported and indexed for easy and secure storage and retrieval.

3 AR Parts Invoices

The barcode imports key data and validates in Karmak Fusion for easy and secure storage and retrieval.

4 Human Resources

Securely access personnel and other HR documents. Improve compliance with retention and privacy requirements.

5 Posting Reference Reports

Parts invoices and supporting documents with barcodes validate key data in Karmak Fusion for easy and secure storage and retrieval.

6 Cash Receipts

Capture and index any type of remittance for easy and secure storage and retrieval.

7 Deal Jackets

Import and index deal jacket documents for easy and secure archiving and retrieval.

8 Other Documents

Certifications, manuals, lease, facilities, or any defined document type can be identified and easily scanned and indexed for secure storage and retrieval.
