Robinia Hammock

Materials & Construction

Posts: Two Robinia hardwood posts, Ø14–16 cm, 2.5 m long, set 4.05 m apart
Hammock: Black hammock bed, 2.90 x 1.00 m
Suspension: Each end: 100 mm eye bolt, shackle, 50 cm chain and shackle
Foundations: Posts set 0.8 m in the ground; 1.7 m above ground
Handling: Largest single part 2.5 m long and about 20 kg

With a free-fall height of 0.75 m, the manufacturer specifies grass under the hammock, and BS EN 1176-1 also allows any EN 1177 impact-absorbing surface. We'll recommend the right finish for your site.

How to Use

Lie back

Children climb in, lie back and rest, swaying gently in the hammock.

Benefits:

A calm space that helps children settle and regulate.

Rock and balance

Children sit up and rock the hammock side to side, keeping their balance.

Benefits:

Core strength, balance and body awareness.

Inspection & Maintenance

Routine visual check weekly (daily on busy or vandal-prone sites), an operational check every 1–3 months and a main inspection once a year. Check the hammock fabric, eye bolts, shackles and chains for wear, and keep the grass under the hammock in good condition. Morti Sport & Play offers annual inspection and maintenance for school and public sites.

Why Choose This Product

A simple Robinia hammock that adds a quiet, restful spot to a playground or natural play area. The black hammock bed hangs on short chains between two Robinia posts, low enough for young children to climb in and out, and it can sit straight on grass.

- Adds calm play alongside active equipment
- Can go on grass; suitable from age 1+
- Simple two-post install, about 60 kg in total
- Designed, supplied and installed by Morti Sport & Play's own teams
