RE	Showers — Category Report, September 2026 refresh · #15 of 20 by buyer demand

Category report · New Zealand & Australia · 1 October 2025 to 30 September 2026 · every figure per market, never summed. This refresh continues the Category Report Library series in the same structure: the funnel top down, where the category is moving, who researches it, and supplier benchmarks. Aggregate-only and safe for external use; supplier distributions are suppressed for any market under five listed suppliers.

2 Where the category is moving

Product-page views ran **+25% in NZ and +54% in AU** in the second half of the window against the first (April–September 2026 vs October 2025–March 2026, consistent series — part growth, part seasonal shape). Enquiry growth is deliberately not stated: pixel coverage expanded during the year, so the two surfaces are shown as levels with the split always visible rather than as a growth rate.

Showers — Category Report · September 2026 refresh · Region: NZ + AU · Method and scope: period: 1 October 2025 to 30 September 2026, every figure per market; category register from the live benchmark table (suppliers with nonzero category product pageviews in the window); all-pageviews from production event data, bots excluded; product-page views are per-supplier max-per-month then summed; saves, downloads, click-throughs, conversations and own-site (pixel) figures from the daily journey ledger over the category register; enquiries shown on both surfaces with the split always visible — pixel coverage expanded during the year, so enquiry growth is not stated; momentum compares April–September 2026 with October 2025–March 2026 inside the consistent series (a February 2025 measurement-basis change prevents honest cross-year comparison) and includes seasonal shape; audience counts are identified organisations and individuals over the four quarters, floors, client staff excluded; supplier distributions published only for markets with at least five listed suppliers, and no individual supplier is named. Aggregate data, safe for prospect use. Reproducible from source on request.
