## goTenna PRO DEPLOYMENT KIT 2

Data Sheet

Introducing the goTenna Pro Deployment Kit 2™ (goKit 2™). Now featuring a ruggedized Samsung tablet, the goKit 2™ is a portable charging kit for up to 30 Pro-X2 devices that can be used as an off-grid mobile command center to provide unprecedented situational awareness at the tactical edge without cell service or satellite connectivity. Made in USA.

## KEY FEATURES

**Tablet Operation**
Device management, deployment tools, and other apps hosted on an included and removable Samsung Android Tablet.

**Mobile Command Functionality**
Deploy ATAK or goTenna Pro+ app within the goKit for mission control from anywhere. Tablet provides capability to enable connectivity of nodes to a centralized TAK server for relaying critical information to central command.

**Rapid Deployment**
Distribute mission information and device configuration over a WiFi hotspot through a single deployment pack, including encryption keys, frequency sets, map files, and more.

**Security and Durability**
Enhanced security and AES256 encryption via Android. The Samsung Android Tab Active3 is IP68-rated and MIL-STD 810H ruggedized.

---

**Scalable**
Fully equip up to 30 users from a single kit.

**Rapidly Deployable**
Configure and deploy within minutes, 100% off-grid.

**Portable**
Less than 25 lbs. Flight-ready as a carry-on or checked item. Internal battery meets IATA and TSA regulations

**Charging Station**
Charge Pro-X2 devices, tablets, phones, and other USB devices.

**Portal Sync**
Seamlessly updates configurations, apps, and more with your goTenna Portal account.
