THE CAMBRIDGE LEARNING EXPERIENCE

Our award-winning Cambridge programmes are designed to inspire independent thought and intellectual confidence. Taught by expert tutors, many holding Oxford or Cambridge academic backgrounds, each class welcomes fewer than eight students — ensuring space for tailored, one-to-one learning and meaningful discussion.

You will study in historic college settings in Cambridge, in the same spaces where generations of students have grappled with difficult questions. Beyond the classroom, the experience unfolds through cultural activities and excursions — from punting along the River Cam to exploring local landmarks, castles, and museums.

AT A GLANCE

START DATES

Late June – mid August

Two-week sessions

LOCATION

Cambridge, UK

Newnham College, Sidney Sussex College

AGE GROUPS

13–15 | 16–17 | 18–24

2027 TUITION

£5,495 – £9,995

Specific start and end dates may vary by age group. Full programmes, dates, and tuition at atlassummercourses.com

FEATURED SUBJECT AREAS

English Literature and Creative Writing

Students explore literature while developing their own writing style, crafting compelling characters and plots, and learning to communicate ideas clearly and creatively.

Biotechnology and Genetics

A foundation in biotechnology and genetics, exploring how these fields are shaping medicine, pharmacology, and agriculture through genetic engineering, cell biology, and ethical questions.

Medicine

Students explore cell biology through theory and hands-on study, examining how normal bodily function connects to disease and how research is advancing new approaches to treatment.

CAMBRIDGE

Award-winning courses designed for students ready to rise to what's next.

GET TO KNOW OUR STUDENTS

Our Cambridge programmes are designed for students aged 13–24, across a wide range of academic interests and career goals. Students are split by age group to ensure the right learning approach at every stage. For Advanced Courses, applicants must be aged 18–24 and have completed at least two years of undergraduate study, or equivalent, by the course start date.

Ages 13–15

Staying in the city of Cambridge offers a wide range of experiences. Guided city tours and orientations led by our staff help students settle in, while daily activities and excursions provide fun, learning, and the chance to explore local culture. Group projects, free time with peers, and evening events like Bop and formal dinners foster connection and confidence.

Ages 16–17

The experience is enriched with activities designed to support both academic and personal growth. Students enjoy full-day excursions and free time to explore Cambridge independently or with new friends. Evenings are filled with socials and cultural outings, while structured sessions encourage discussion and collaboration. Formal dinners add a memorable touch.

Ages 18–24

A mature and independent summer that balances academic depth with social engagement. Activities include evening socials, college visits, and industry insight talks that inspire ambition and networking. With built-in free time, students explore Cambridge and connect with peers, concluding with formal dinners and a graduation ceremony.

**Activities vary depending on tier.*

FIELDS OF STUDY

English Literature	Creative Writing	Psychology
Economics	Business	Neuroscience
Law	Psychology	History

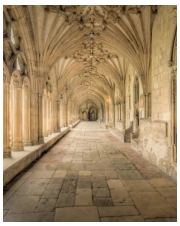
IMMERSIVE EXPERIENCES

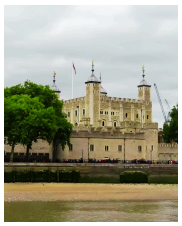


Canterbury

Discover medieval England in historic Canterbury, home to its iconic cathedral, charming streets and rich heritage.

British Museum

In the heart of London, one of the world's most renowned museums, home to over 8 million historical artefacts from around the globe.



Tower of London

A historic castle and fortress that has served as a royal palace, a prison, and even a zoo over the course of its many centuries.

> "I loved having people from different cultural backgrounds in my summer school course, they brought experiences to the conversation that I had never encountered before."
