Change the Economics of Exploitation

Investing in scalable, commercially viable technologies that protect vulnerable people, disrupt trafficking networks and make exploitation harder to sustain.

FREEDOM FUND II

An urgent problem.
A high-growth technology market.

Technology has changed the economics of exploitation, and it is changing the economics of fighting it. Regulation, litigation and insurance are turning counter-trafficking from a cause into a business requirement, creating paying customers for Freedom Tech.

Growth driver analysis · Historical industry comparison

Insurance cut coverage.
The market is about to take off.

Counter-crime markets take off when losses get so high that insurers stop covering the risk.

84×

Cybersecurity's growth after insurers cut cyber risk from coverage. In 2026, insurers cut trafficking coverage too.

CYBERSECURITY
$3B → $248B
2003–2026. The market grew 84× after insurers cut cyber risk from coverage.

COUNTER-TRAFFICKING TECH
$855M → $34B
2025–2045 (projected).

LEGISLATION
1 → 29
Federal trafficking statutes, 2000–2025, plus dozens of state corporate mandates.

LITIGATION
21 → 353
Annual trafficking liability cases, 2018–2025. 87.5% name corporate or institutional defendants.
Source: Human Trafficking Legal Center, Federal Human Trafficking Civil Litigation 2025 Data Update (2026).

INSURANCE
2026
A standard ISO exclusion removed trafficking coverage. 80%+ of insurers now exclude it from general liability.

Growth is strongest where institutions face real economic pressure to deploy software.

Direct impact:
The product is the impact.

Eagle backs companies whose products create measurable impact every time a customer pays for them. The product itself fights exploitation, so impact grows as revenue grows.

"Who in the value chain has both the pain and the ability to pay?"

Three areas of Freedom Tech

Child safety. Sex trafficking. Labor trafficking.

COMMERCIAL BUYER	WHAT THEY PAY FOR	EXAMPLE
Enterprises & supply chains	Forced-labor risk intelligence, due diligence	Evidencity
Hotels & hospitality	Safety platforms that reduce liability	Hotel Shield
Families & schools	Child online protection and monitoring	HarmBlock
Investigators & law enforcement	Investigative and detection tools	Project Umbra

Examples are Eagle Freedom Fund I portfolio companies selected to illustrate buyer categories. Not all investments, and not Fund II holdings.

10 years of building funds and markets

Eagle Venture Fund is a global impact venture firm with offices in Dallas, Zürich and Singapore. Eagle seeks market-rate returns or better that come from solving today's biggest social problems, not in spite of them. Its approach combines financial, strategic, technical, legal, team and impact diligence with hands-on founder support and access to the Clapham Accelerator community.
