What do our clients say

"igc prepared me a lot. Not only in presenting prospects, with its extensive network of great venture capitals worldwide, but also in preparing materials and, most importantly, in the discussions during and after the term sheet. igc was fundamental both in Series A and Series B."

Alexandre Zolko
CRMBonus

"igc's ability to analyze our business, understand where the value levers are, and model the business so that we were truly prepared, whether for an M&A or a fundraising round, made all the difference."

Felipe Almeida
ZUP

"You understood our thesis, and despite speaking with multiple funds and companies that were interested in us, we weren't familiar with the fund we eventually closed with. GIC has proven to be a valuable partner for our business. You found the partner that fit with our vision."

Fábio Felippe
Sankhya

"igc has always been deeply concerned with our business, fiercely defending what was important to us as shareholders, and knew how to create value for the company. Having advisory support is essential, and igc's is truly exceptional."

André de Vivo
Farmasa

Our clients

"The security conveyed since the beginning of the process was incredible. Every step was explained in detail, and I always felt comfortable deciding whether to move forward."

Alberto Yoshida
Yoshida & Hirata

"The closing of our deal with an international company showcases the full capability of igc's team to position your company on a global level."

Ferreirinha Costa
Fortgreen

"No one had ever offered us a solution like this before. igc was able to structure an out-of-the-box operation we thought would never happen, and that was essential for the success of our fundraising."

Ricardo Luna
Conx

"The way the process was presented, step by step, gave me complete clarity and made me feel comfortable."

Luiz Henrique Didier
Bexs

The best thing about igc is their negotiation skills. They can extract more value through a differentiated process, always staying closely connected to the entrepreneur."
