

VOIPLY

Voip vs Landline

VOIPLY RESIDENTIAL

Residential VoIP Growth

The number of residential VoIP subscribers in the United States reached 76 million in 2022.

International Communication

Voiply offers free international calling to 50+ countries, with Mexico, the United Kingdom, and India being the most popular destinations.

72%

Enhanced Call Quality:
HD Voice provides clearer and more natural sound, preferred by 72% of users surveyed.

25%

Mobile Access:
Over 25% of Voiply customers utilize the mobile app to receive calls and access features, both at home and while traveling.

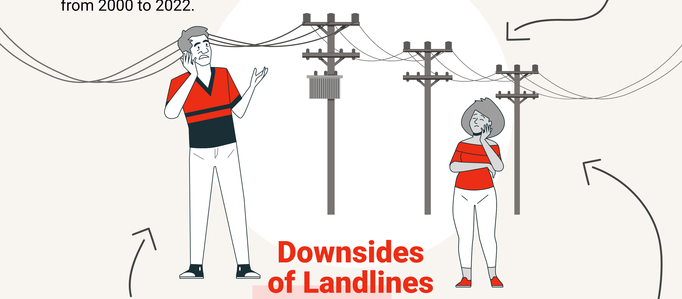
60%

Cost Savings:
Voiply service starts at $8.95 per month, leading to an average savings of 60% when switching from landlines.

Costly Maintenance:
AT&T reported spending around $7 billion annually to maintain its landline network in 2019.

Vulnerability to Service Outages:
Natural disasters like Hurricane Irma knocked out landline service for thousands of customers.

Declining Usage:
Landline subscriptions in the United States declined by 81% from 2000 to 2022.



Downsides of Landlines

Copper Theft:
Landline infrastructure's reliance on copper wiring contributes to the rise in copper theft, costing the U.S. economy $1 billion annually.

Rising Costs:
POTS service costs have increased by 37% between February 2012 and February 2022.

Neat Facts

Approximately 88% of Americans have access to fixed broadband at speeds of 25 Mbps download and 3 Mbps upload or higher, making VoIP phone service available to most of the country.

88%

Broadband Access

98%

98% of phone numbers in the United States are eligible for portability, allowing users to switch to VoIP with minimal downtime.

Number Portability

Enhanced 911

Enhanced 911: Voiply enables accurate location information for faster 911 assistance. It also provides automatic notifications to designated contacts via email or SMS when 911 is dialed.

Eliminate Phone Scams

99%
