Profile:

Compassionate and highly organized healthcare professional with dual expertise in clinical case management and occupational therapy. Skilled in conducting holistic assessments, coordinating multidisciplinary care, and delivering evidence-based therapeutic interventions that promote independence, wellbeing, and quality of life. Adept at managing complex caseloads, navigating health and social care systems, and advocating for clients with diverse needs. Recognized for strong communication, problem-solving abilities, and a person-centred approach, ensuring that the individual can reach their true potential.

My Specialist Skills Include:

Clinical Case Management

- Comprehensive biopsychosocial assessments
- Care planning and goal setting
- Risk assessment and safeguarding
- Multidisciplinary team recruitment and coordination
- Crisis intervention and de-escalation
- Caseload management and prioritisation
- Documentation, reporting, and compliance
- Client advocacy and empowerment

Occupational Therapy

- Functional assessments (ADLs/IADLs)
