CONNOR GROUP

About Connor Group

Connor Group is built for breakthroughs.

We're a professional services firm focused on the most critical opportunities and challenges facing ambitious companies. We're leaders in accounting, compliance, M&A, IPOs, and digital solutions, including strategy, system implementation, automation, analytics, and AI. Serving the offices of the CFO, CIO/CTO, and CHRO, we're trusted by over 2,000 of the most exciting brands on earth to deliver results that last.

Founded in 2006, Connor Group quickly became the leading IPO advisory firm. Helping over 270 companies go public built our pragmatic, delivery-oriented approach and $4.0 trillion in client valuation. It also created elite-level pattern recognition and listening skills to identify problems quickly and solve them efficiently.

The majority of Connor Group previously worked in industry. Expect tailored solutions, creative real-world problem solving, and sleeves rolled up.

Our expert teams are fluent in function, technology, and world-class communication.

Unlike others, we're independently owned and never compromise on quality.

Neither should you.
