WOOD FINISHES
Wood finish names such as Mahogany and Cherry describe color only, not wood species. Finishes are applied to maple, beech, or similar woods. Wood surfaces have natural variations in grain and porosity and absorb finishes differently which may result in variations of final color. Finishes will darken and change color over time and with exposure to sunlight. Premium veneer names such as walnut and oak, describe the wood species and have a clear coat finish.

PAINTED WOOD FINISHES
Please note the lifetime structural warranty does not apply to painted finishes. Painted finishes should be specified with consideration of the environment they will occupy. Although a clear sealer coat is applied during production these finishes are topical and they can scratch, dent or mark if treated in a rough manner. If left in direct sunlight for extended periods of time you will notice the color will fade and/or change.

Upholstery Details

Due to the dimensional design of the back, stripes and large-scale patterns are not recommended, as they may appear distorted or wavy.

All models feature cording details; small-scale patterns are not recommended for cording, as distortion or waviness may occur.

To maintain a comfortable sit, comfort wrinkles are considered acceptable with certain textile selections.

Textile, leather, or vinyl puddling may occur over time depending on material selection and use.
