STRUCTURE

The structure is offered in bronze or aluminum, with selected patinas, oxidation treatments, colors and surface finishes appropriate to the material.

METAL TABLETOP VARIATIONS

A bronze tabletop may be fully textured or completely smooth, with a polished, satin or matte finish and selected bronze patinas. Smooth and textured options apply only to the tabletop, not the supporting structure. Aluminum and stainless steel tabletops offer polished, satin or matte finishes; selected oxidation treatments and colors are also available for aluminum.

Natural and decorative veneers are subject to artistic and technical review. Lacquered finishes are subject to availability and technical feasibility.

PRICING

Offered structure patinas and finishes are included in the price for the selected material. An aluminum structure in place of bronze requires a separate quotation. Tabletop materials and finishes may affect pricing; veneer and lacquer requests are quoted separately.
