PRODUCT, PROCESS AND SERVICECERTIFICATION BODY ACCREDITATION PROGRAM (CBAP)

Scope of Accreditation

Accredited Legal Entity: **PFS Corporation (operating as PFS TECO)**

Contact Name: Greg Dupuis – Building Products
John Steinert – Hearth Products

LOCATION A

Address: 1507 Matt Pass
Cottage Grove, Wisconsin
USA
53527

Telephone: 608-839-3032 – Building Products
503-650-0088 – Hearth Products

Website: www.nfpaglobalsolutions.com/pfs-teco-services

Email: info@nfpaglobal.com

SCC File Number:	10027
Accreditation Standard:	ISO/IEC 17065:2012 – Conformity assessment — Requirements for bodies certifying products, processes and services
Additional Accreditation Requirement:	SCC Requirements and Guidance – Product, Process, and Service Certification Body Accreditation Program
Initial Accreditation:	1998-11-30
Most Recent Reaccreditation:	2026-09-17
Accreditation Valid to:	2030-11-30

Additional Fixed Office Locations:

Refer to the legal entity location identified at the top of this listing. There are no additional locations included in this scope of accreditation:

Product Certification Scheme

Canada

Certification Mark:

ISO/IEC 17067, Conformity assessment - Fundamentals of product certification and guidelines for product certification schemes, scheme type 5 most closely resembles the product certification scheme operated by this organization. The surveillance part of this scheme allows for the choice between periodically taking samples of the product either from the point of production, or from the market, or from both, and subjecting them to determination activities to check that items produced subsequent to the initial attestation fulfil the specified requirements. The surveillance includes periodic assessment of the production process, or audit of the management system, or both. The extent to which the four surveillance activities are conducted may be varied for a given situation, as defined in the scheme. If the surveillance includes audit of the management system, an initial audit of the management system will be needed.

Scope of Accreditation:

The scope of accreditation for the above-mentioned legal entity limits the use of the certification mark shown to products that meet standards classified by the following international classification coding:

ICS No.	Title	Purpose
79.060.10	Plywood	Performance
79.060.20	Fibre and particle boards	Performance
91.080.20	Timber structures (Glued laminated timber)	Performance

Certification Mark:

ISO/IEC 17067, Conformity assessment - Fundamentals of product certification and guidelines for product certification schemes, *scheme type 5* most closely resembles the product certification scheme operated by this organization. The surveillance part of this scheme allows for the choice between periodically taking samples of the product either from the point of production, or from the market, or from both, and subjecting them to determination activities to check that items produced subsequent to the initial attestation fulfil the specified requirements. The surveillance includes periodic assessment of the production process, or audit of the

management system, or both. The extent to which the four surveillance activities are conducted may be varied for a given situation, as defined in the scheme. If the surveillance includes audit of the management system, an initial audit of the management system will be needed.

Scope of Accreditation:

The scope of accreditation for the above-mentioned legal entity limits the use of the certification mark shown to products that meet standards classified by the following international classification coding:

ICS No.	Title	Purpose
79.060.10	Plywood	Performance
79.060.20	Fibre and particle boards	Performance
79.080	Semi-manufactures of timber	Performance
83.080.20	Thermoplastic Materials	Performance
83.180	Adhesives	Performance (in terms of wood products only)
91.060.40	Chimneys, shafts, ducts	Performance and Safety
91.080.20	Timber structures	Performance
91.100.99	Other construction materials (Construction adhesives for wood)	Performance
91.140.10	Central heating systems (Gas, oil and solid fuel-fired systems only)	Performance and Safety Electrical Safety
97.040.20	Cooking ranges, working tables, ovens and similar appliances	Performance and Gas Safety
97.100.20	Gas heaters	Performance and Gas Safety Electrical Safety
97.100.30	Solid fuel heaters	Performance and Safety
