ABOUT
GSP CROP SCIENCE LIMITED

GSP Crop Science Limited is a global agrochemical company delivering innovative, sustainable crop protection solutions to farmers across 60+ countries. Our portfolio spans herbicides, insecticides, fungicides, plant growth regulators, and specialty solutions — engineered to improve yields while supporting sustainable agricultural practices.

Innovation drives everything we build. With 524 product registrations and an in-house R&D engine that has delivered 102 granted patents and 108 applications under review, GSP brings proven, protected technology to every market we serve.

Recognized as a "Star Export House" by the Government of India, GSP operates certified, multi-location manufacturing facilities across Gujarat, spanning over 70,000 sq. meters of production capacity — built for scale, consistency, and global compliance.

From formulation to field, GSP partners with distributors, institutions, and growers worldwide to build long-term, reliable agricultural partnerships.
