2027 HEALTHCARE GUIDE

What If Your Doctor Cost Less Than Your Insurance?

For many Maryland patients, it already does.

> *"If I'm already paying for insurance, why would I also pay a monthly fee for my doctor?"*

Fair question.

Direct Primary Care and health insurance cover two completely different things — and together, they can cost you **less than either one alone.**

TWO LAYERS. TWO JOBS.

YOUR DPC MEMBERSHIP

- Unlimited visits — no co-pays
- Same- or next-day appointments
- Chronic disease management
- Labs at discounted prices
- Direct access to Dr. Malhotra
- Virtual & chat support

YOUR HEALTH INSURANCE

- Specialist visits
- Hospital care
- Emergency room
- Imaging & surgery
- Catastrophic coverage

They don't compete. They complete each other.

Your DPC membership fee stays HSA-eligible

The One Big Beautiful Bill Act changed the tax code. Use pre-tax HSA dollars for your Aurora membership — up to $150/mo for individuals.

Tax bracket	Effective monthly cost after HSA
22% (most common)	~$58/mo young adult · ~$74/mo adult
24%	~$57/mo young adult · ~$73/mo adult
32%	~$54/mo young adult · ~$70/mo adult

Aurora Primary Care membership: Adult (30–64) $95/mo · Young Adult (20–29) $75/mo · Teen (12–19) $35–$55/mo

Thyroid Panel	**$10–$25** vs. $100–$200 with insurance
Comprehensive Metabolic Panel	**$10–$20** vs. $100–$175 with insurance

Rates reflect current DPC lab partner agreements and are subject to change.

HONEST PERSPECTIVE

The HDHP deductible is real. Here's how to think about it.

IN A TYPICAL YEAR

Aurora covers all your primary care. You rarely trigger the deductible for everyday needs.

IF SOMETHING MAJOR HAPPENS

A hospitalization or surgery — you may pay more than with a standard plan. That's real, and worth knowing.

THE LONG-TERM TRADE

Sarah saves $432/year with Aurora + HDHP. After three years, those savings offset a significant portion of a deductible event.

Find your scenario

Employed, freelance, or family? The right financial case for Aurora looks different depending on where you start.

1. **Add up last year's actual spend**
   Premiums + co-pays + urgent care + labs. Most patients are surprised by the total.

2. **Compare against the Aurora model**
   For most patients who see their doctor more than twice a year, the math shifts clearly in favor of DPC.

3. **Bring your questions to a Meet & Greet**
   No commitment. Dr. Malhotra will walk through your specific situation with you.

Schedule a Free Meet & Greet

No commitment. No paperwork. No pressure.

A real conversation about your health, your coverage, and whether Aurora is right for you.
