Circular clothing design implementation

Final workshop and presentations

Tuesday, 20 October 2026

Acknowledgement of Country

We acknowledge the traditional custodians of Country throughout Australia and their connections to land, sea and culture.

We pay our respects to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander Peoples.

What we'll cover

1. Welcome and overview
2. Participant presentations
3. Group discussion and reflection
4. Next steps including goal setting
5. Close from Seamless

Circular design training overview

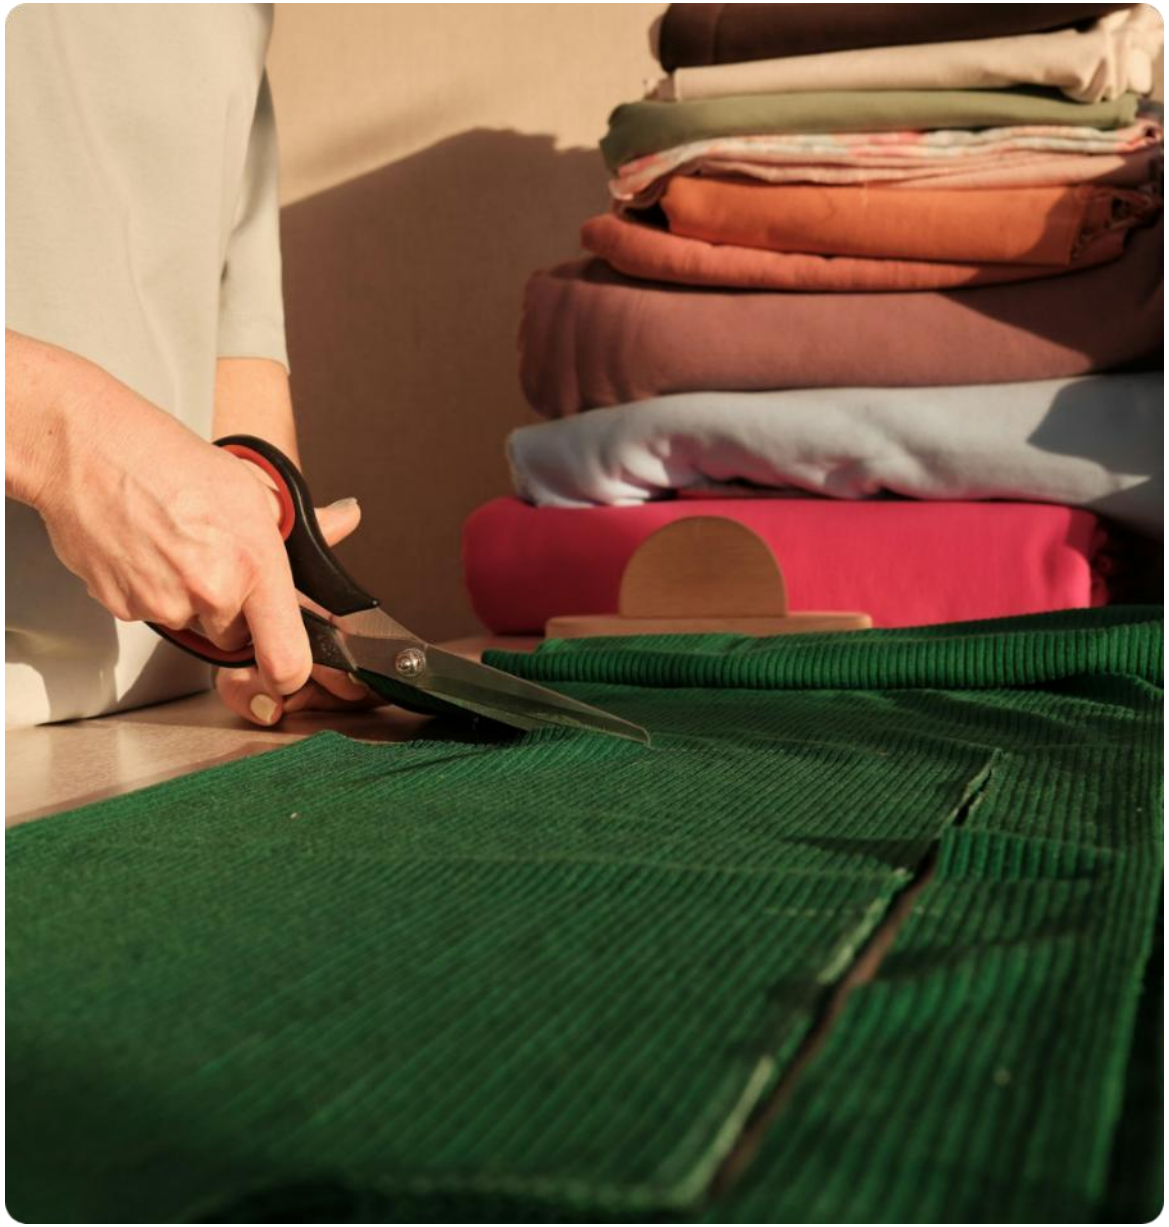
What	When	Who
Circular Clothing Design Foundations	Two hour online course held in June 2026	Organisation wide
Circular Clothing Design Implementation	Full day workshop in Melbourne in July 2026	Design and production teams
Circular Clothing Design Implementation final workshop and presentations	Two hour online workshop in October 2026	Design and production teams, and other decision makers

Learning objectives

01 Apply the Refashioning circular clothing design methodology in a real world environment to redesign a garment that aligns with circular design principles.

02 Collaborate with others to share learnings and set practical, actionable goals to support the implementation of circular clothing design principles within your organisation.

Participant presentations



Group reflection

1. What has surprised you most about this training?
2. Did any new opportunities present themselves?
3. How did you resolve any challenges with implementation?
4. What is needed at an industry level to solve implementation challenges (what internal or external assistance is required)?
5. How do you see this integrating into your daily job, beyond the project?

Next steps

Set SMART goals

- Create a SMART goal for your organisation to carry circular design forward.
- Examples could be to produce a new product as a pilot, gather customer feedback, undertake a cost analysis, implement a new process or system or set up an internal working group.
- Consider how this goal contributes to meaningful change in your organisation.
