

GRO-BARK®

ORGANIC GARDEN BLEND

Technical Data Sheet

PRODUCT DESCRIPTION & DIRECTIONS FOR USE

Organic Garden Blend is a well-balanced, light weight soil that has a deep earthy aroma. It contains three sources of organic matter which include horticultural grade aged bark, duck compost, and leaf and yard compost. Although we have taken great care at removing foreign objects from leaf and yard compost to meet CQA Category AA certification, small fragments may remain from the leaf and yard waste collection process. All Gro-Bark® compost is derived from leaf and yard waste and contains no food or source-separated organic residuals. The aged bark provides a durable organic component which improves drainage and aeration, while the two types of compost enhance nutrient availability and improve the moisture holding capacity of the blend.

This product has been approved for use in organic agriculture by Ecocert Canada.

Product Weight: 416 Kg/CY*

Directions For Use: Apply as bedding for new garden at a 12" depth (maximum recommended rate).

*Material weight is subject to change with fluctuations in moisture content.

GUARANTEED MINIMUM ANALYSIS

Active Ingredient*:	73% Compost (Leaf and yard residues, duck manure)
Minimum Organic Matter:	25%
Maximum Moisture:	60%
Total Nitrogen (N):	0.2%
Available Phosphoric Acid (P₂O₅):	0.1%
Total Phosphoric Acid (P₂O₅):	0.2%
Soluble Potash (K₂O):	0.2%
pH:	7.0 - 8.5
EC:	< 2.0 mS·cm ⁻¹

*Active ingredient percentage calculated on a weight by weight basis using the bulk density of the product.

Safe Handling: Store in a cool dry place. Handle material with gloves and wash your hands after handling this product.

Precaution: This product is not to be ingested.
