The wheel of life in a circle goes,
With gusted speed or slowest slows,
~~Picking up~~
Slowly in its upward climb,
accelerating with the changing time.
The slow and steady ~~road of life~~
trip thru life
Oft numbs the pain of cares and strife,
Think not of days long since gone,
But know and feel that you're
ne'er alone.
~~For mind~~
convoluted within the human brain,
Lies the mind ~~other~~ both warped & sane.
and
Fears and pain oft takes command,
Yet rains or snows ne'er conquered land.
Just meet each problem face to face,
And ~~place~~ by His Grace you'll find
your place.
Lets thank dear God who reigns
above,
And we at Home you have our ~~deadly~~ Love.

Daddy.
