## ENHANCE® BARK MULCH

### Technical Data Sheet

#### PRODUCT DESCRIPTION

Gro-Bark's Enhance® Bark Mulch is a blend of hardwood bark fibers and mixed species wood that has been ground and aged for stability. It contains a uniform, fibrous texture that has been coloured using a certifiably safe, natural pigment.

As with other mulches, Gro-Bark's Enhance® Bark Mulch increases soil moisture retention and root zone cooling, which minimizes frequent irrigation.

Available in:

- Enhance® Black
- Enhance® Brown

#### TYPICAL ANALYSIS

<b>pH*:</b>	6.0 - 8.0
<b>Moisture Content:</b>	45 - 55%
<b>Organic Matter Content:</b>	70 - 80% by weight (dry)
<b>Size Gradation:</b>	95% ≤ 2"

#### APPLICATIONS

Gro-Bark's Enhance® Bark Mulch can be used with a variety of plants including trees, shrubs and perennials and in a variety of applications including garden beds and containers.

If using Gro-Bark's Enhance® Bark Mulch for weed control, it should be applied at least 4" deep to be effective. After the initial application, Gro-Bark's Enhance® Bark can be topped up with just an inch or two in subsequent years.
