

GRO-BARK®

COLOURED MULCH

Technical Data Sheet

PRODUCT DESCRIPTION

Gro-Bark's Coloured Mulch is created from freshly ground softwood and has all the same benefits of Canada Red SPM®, but includes the aesthetic appeal of colour enhancement. The mulch colourant used, derived from natural iron oxide, is safe to handle and non-toxic.

Available in:

- **Rustic Red** - Dark Red-Brown Colour;
- **Signature Black** - Black Colour;
- **Signature Red** - Bright Red Colour; and,
- **Signature Brown** - Brown Colour.

TYPICAL ANALYSIS

pH*:	6.0 - 8.0
Moisture Content:	45 - 55%
Organic Matter Content:	70 - 80% by weight (dry)
Size Gradation:	95% ≤ 2"

APPLICATIONS

Similar to other mulches, Gro-Bark's Coloured Mulch can be used with a variety of plants including trees, shrubs and perennials and in a variety of applications including garden beds and containers.

If using Gro-Bark's Coloured Mulch for weed control, it should be applied at least 4" deep to be effective. After the initial application, Gro-Bark's Coloured Mulch can be topped up with just an inch or two in subsequent years.

For complete product information or questions, please contact your Gro-Bark sales representative.

NOTE: These values are representative of quality control analysis at the time of manufacturing. This data is for information purposes only and cannot be used as a warranty.

**Determined using the 1:2 dilution method for soilless media*
