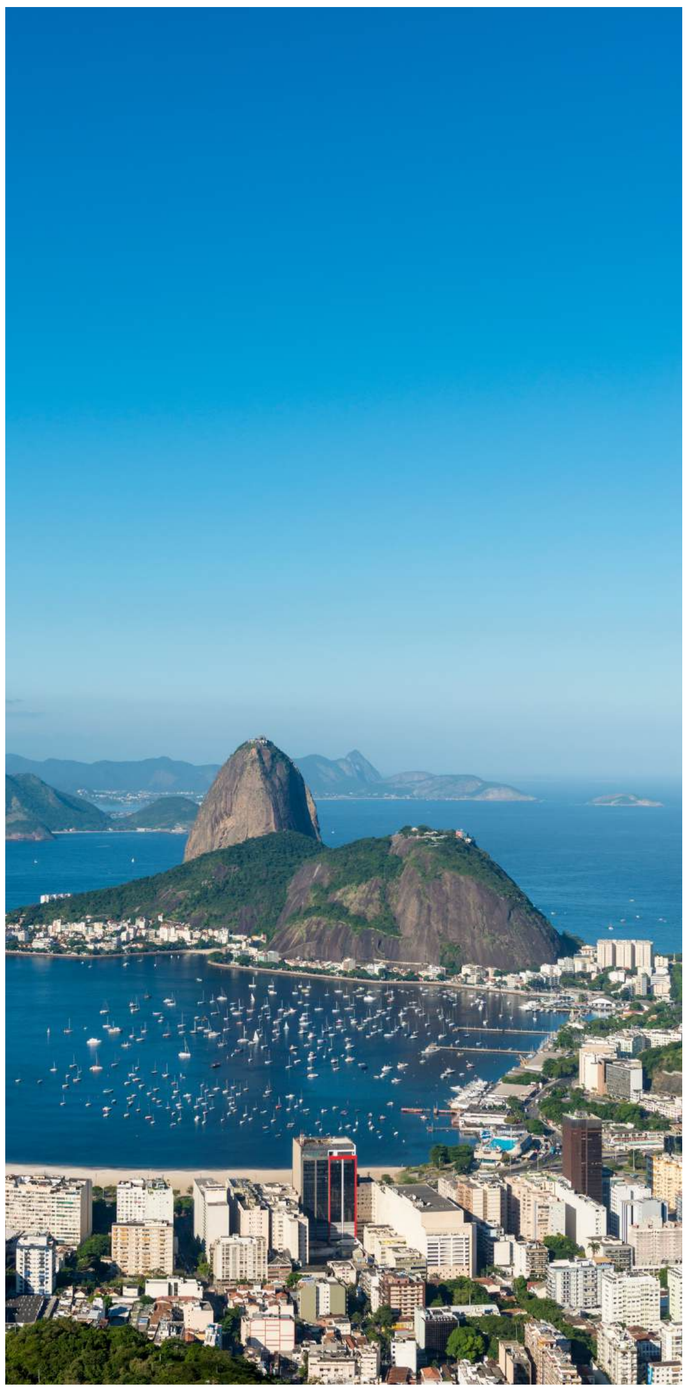
2028
WCIT 50th anniversary, Durban

Back to Brazil, then to Sarawak, On to Durban: Building WITSA’s Next Chapter

Few stretches in WITSA’s history will be as exciting for our community as the next two years. The WITSA Global AI Summit 2027 in Rio de Janeiro, the WITSA Global AI Summit 2027 in Kuching, Sarawak, and WCIT 2028 in Durban, our 50th anniversary congress, are all ahead of us. Each is a milestone on its own, setting the direction for the global tech alliance towards the next decade.

Returning to Brazil with purpose

We expect members to start planning their participation at the WITSA Global AI Summit 2027, February 15–17, in Rio’s Fairmont Rio de Janeiro Copacabana. Latin America has long been part of the WITSA story. In 2014, WCIT brought more than 2,600 delegates from 49 countries to Guadalajara, Mexico. In 2016, WITSA’s General Assembly and WCIT came to Brasília, where more than 2,000 delegates from 50 countries gathered. Brazil’s bid was brought to WITSA by Assespro, and its members delivered. Returning to Brazil now, albeit with the newer WITSA Global AI Summit, means a great deal to us. Brazil is building its AI future, and WITSA is bringing its global network, its member associations and its WITSA Global AI Ecosystem Network (WITSA GAIN) to help shape it.



It means just as much to our host, Federação RJ Assespro, and the Prefeitura do Rio de Janeiro. Hosting the WITSA Global AI Summit gives Rio, and the Brazilian technology industry a place on the world stage as a global protagonist of artificial intelligence. I thank our hosts for their vision and partnership.

Rio is also where WITSA looks ahead. The next WITSA General Assembly will convene there, and our member associations will elect the new Chairman and Board of Directors for the next two-year term. Please plan to be there and have your voice counted. I also encourage you to join as a delegate, sponsor or partner, and to nominate your champions for the WITSA Global Excellence Awards, whose ceremony takes place on February 16. Nominations close on December 1, 2026.

CEO'S CORNER

Sarawak, where the AI agenda becomes real

Then, in October 2027, we take the WITSA Global AI Summit to Sarawak, Malaysia, in conjunction with the 10th anniversary of the International Digital Economy Conference Sarawak (IDECS). For WITSA, this is a return to familiar ground. WCIT 2023 was held in Kuching alongside the 6th IDECS, and it was at that opening that the Sarawak Digital Economy Blueprint 2030 was launched.

Sarawak is the Founding Hub Partner of the WITSA Global AI Ecosystem Network (WITSA GAIN), and it is steadily advancing toward the Blueprint's vision of becoming a leading digital economy and society by 2030. That makes Sarawak a working example of what WITSA GAIN is meant to deliver: a government, an industry and a community building an AI ecosystem step by step, with WITSA's framework and network behind it.

I thank the Sarawak Government and the Sarawak Digital Economy Corporation (SDEC) for their stewardship and I invite our members to come and explore the opportunities for global collaboration.

The WITSA Global AI Summit in Kuching will also include the WITSA Global AI Awards as well as the 2nd edition of the WITSA World Cup for tech scaleups where the World Champion will be crowned with the Zohari Challenge Trophy.

CEO'S CORNER

A golden anniversary in Durban

I am delighted to announce that Durban, South Africa, has won the bid to host WCIT 2028, the 50th anniversary edition of WITSA's flagship congress. For nearly five decades, since Barcelona in 1978, WCIT has brought together tech leaders, industry associations and policymakers from around the world. Taking the 50th Anniversary of WCIT to South Africa reflects our commitment to extending the reach of the global technology platform. WCIT 2028 will also mark the first time a WITSA flagship event has been hosted on the African continent, recognizing the role Africa will play in the next wave of innovation, entrepreneurship and inclusive growth.

Durban won the bid through the joint effort of Innov8SA, the Innovation and Digital Technology Association Southern Africa, the KwaZulu-Natal Convention Bureau and the Durban International Convention Centre. Together they offer a committed delivery team, established conference infrastructure, and a distinctive cultural and coastal setting on South Africa's Indian Ocean coast. I thank all three partners for a compelling bid, and I look forward to working closely with them.

WCIT 2028 will be more than a celebration of our history. It will bring global tech industry decision-makers who will be shaping the next era of technology. The agenda will reach beyond conventional information technology to artificial intelligence, advanced manufacturing, space and earth observation, cybersecurity and digital public infrastructure.

The Congress will also be the stage for the anticipated launch of the third WITSA Global AI Index and a tribute to the global champions of the WITSA Global Excellence Awards 2028. As in every WITSA host city, WITSA GAIN and the AI Index will help Durban develop and measure its AI ecosystem, so that the Congress leaves behind investment and collaboration that last long after the closing session. Further details on the program, dates, venue arrangements and ways to take part will follow in the coming months.

Work to do

Delivering three major catalytic platforms in two years is a lot of work. I count on you, our members, to bring your delegations, your sponsors, your nominees and your ideas. Let's seize the opportunities that Rio, Sarawak and Durban bring to our global community.

Dato' Dan E Khoo
Chief Executive Officer

WITSA GLOBAL AI SUMMIT RIO 2027

Fulfilling the Promise of the Digital, Innovation & Tech industry

www.witsa.org

Rio de Janeiro Welcomes the World: Join the WITSA Global AI Summit 2027 as a Delegate, Sponsor or Partner

Join government leaders, global enterprises, investors and innovators at the Fairmont Rio de Janeiro Copacabana, February 15–17, 2027

DATES	VENUE	CITY
Feb 15–17, 2027	Fairmont Rio de Janeiro Copacabana	Rio de Janeiro, Brazil

WITSA will open its 2027 calendar in one of the world's most recognizable cities. The **WITSA Global AI Summit Rio 2027** takes place February 15–17, 2027, at the Fairmont Rio de Janeiro Copacabana, under the theme *"Rio de Janeiro, Global Protagonist of Artificial Intelligence"* — a celebration of innovation, talent, diversity and purpose. The Summit is hosted by Federação RJ Assespro and the Prefeitura do Rio de Janeiro.

Rio connects Brazil to the world and the world to the future. The Summit is built as a global platform for AI leadership: a place where governments, companies and universities meet, and where business, investment and international cooperation drive economic development and social impact.

The Rio edition is a complete WITSA Global AI Summit and will also host the WITSA General Assembly, where members elect the Alliance's Chairman and Board for the next two-year term, the **WITSA Global Excellence Awards** ceremony on February 15, and WITSA International Match Day, a structured business-matching program for member delegations, investors and technology companies.

THE WORLD COMES TO RIO

- The Global AI Summit as the centerpiece of the discussion
- Latin America's primary innovation gateway
- Global South leadership in technology
- A Taiwan–Brazil technology corridor connecting East and West
- The largest innovation ecosystem in Brazil

WHY RIO IS THE RIGHT PLATFORM

Global Visibility
A globally recognized stage that amplifies your message.

Technology Ecosystem
Home to Brazil's most vibrant technology hubs.

Government Engagement
Strong participation from public-sector leaders.

Cultural Influence
Cultural richness and an inspiring backdrop.

International Access
A major airport hub with connectivity from anywhere.

Unforgettable Experience
A journey delegates will remember for a lifetime.

Brazil's AI Moment: Why Rio, Why Now

The 2027 Summit arrives at a historic inflection point for Brazil's technology landscape

BRAZIL'S AI MOMENTUM

National AI Plan
Execution of comprehensive strategies that define the nation's digital future.

Cloud Infrastructure Expansion
Major investments in data centers and high-performance computing.

Growing AI Startup Ecosystem
A booming environment for deep tech and AI-driven ventures.

University Research Leadership
Positioning Latin America at the forefront of academic AI innovation.

THE WITSA GLOBAL AI INDEX IN RIO

It is not enough to know where we are. We need to understand where to advance. The Global AI Index session on Day 3 shows how national AI ecosystems can be measured and improved, in five steps.

1 · DIAGNOSE	2 · IDENTIFY	3 · DEFINE	4 · DRIVE	5 · BUILD
Understand real capabilities	Find the gaps	Set priorities	Turn insight into action	A stronger AI future

FROM RIO TO A SMARTER, MORE INCLUSIVE WORLD

People, technology and ideas, building a more inclusive tomorrow.

LOOKING AHEAD:
SPONSORSHIP & PARTNERSHIP OPPORTUNITIES

From Brazil to the World: Partner with the WITSA Global AI Summit Rio 2027

Every sponsorship becomes a global positioning opportunity

The Summit gives Brazilian and multinational companies an international stage to engage directly with governments, global enterprises, investors, multilateral organizations, technology leaders and international media. Sponsors and partners join delegations from across WITSA's network of member economies, which spans more than 80 countries and economies.

WHAT PARTNERS GAIN

Corporate Visibility
Place your brand and showcase your capabilities on a premier global stage in front of influential technology decision-makers.

International Business Development
Unlock cross-border opportunities, access new markets and forge partnerships with enterprises worldwide.

Executive Thought Leadership
Position your leaders as visionaries in the AI space through panels and global governance dialogues.

Global Brand Recognition
Associate your company with the pinnacle of AI advancement alongside leading global technology organizations.

SPONSORSHIP CATEGORIES

Global Partner | Diamond Sponsor | Platinum Sponsor | Gold Sponsor

Benefits vary by category and include speaking and panel opportunities, exhibition space, executive business suites, access to VIP authorities, brand visibility across Summit assets and delegate passes.

WHY COMPANIES SHOULD CARE

- Access strategic international partnerships
- Connect with governments and policymakers
- Meet international technology investors
- Present products to global buyers
- Generate export opportunities
- Build global brand reputation
- Participate in the global WITSA AI ecosystem

SPONSORSHIP • PARTNERSHIP • DELEGATE REGISTRATION

THE WITSA GLOBAL EXCELLENCE AWARDS 2027 — NOMINATIONS OPEN!

Your Moment on the Rio Stage: Nominate a Global Champion for the WITSA Global Excellence Awards 2027

Thirteen categories. One Chairman's Award. Nominations close December 1, 2026.

Somewhere in your economy, a team has brought a community online, secured a city's data, trained a new generation of digital talent, or put AI to work for the public good. The WITSA Global Excellence Awards exist to make sure the world notices.

The 2027 program honors individuals, academic institutions, corporations, NGOs and governments whose use of digital technology shows exceptional achievement, from healthcare and education to finance, governance and sustainability.

Winners will take the stage at the awards ceremony on **February 16, 2027**, during the WITSA Global AI Summit in Rio de Janeiro, before technology leaders, government officials and international delegates. Nominations are currently open to all WITSA members and members' members until December 1, 2026.

NOMINATIONS CLOSE	AWARDS CEREMONY	CATEGORIES	PER MEMBER ASSOCIATION
Dec 1, 2026	Feb 16, 2027 Rio de Janeiro, Brazil	13 + Chairman's Award	Up to 3 nominees in each category

THIRTEEN WAYS TO BE RECOGNIZED

Digital Opportunity
Digital inclusion and access for people who have been left out

Smart Cities
Connected technology that makes urban services smarter

Cybersecurity
Zero Trust, ransomware mitigation and data privacy

Innovative eHealth
Digital tools that promote health and health care

Public/Private Partnership
Government and private-sector digital partnerships at scale

Digital Talent Development
Programs that build digital skills for the modern workforce

Emerging Digital Solutions
Proven, scalable innovations that transform lives

Tech Investment Excellence
Investors and agencies that drive innovation and growth

Startup Ecosystems
Governments and accelerators that grow startups

AI Excellence
Pushing the boundaries of what AI can do

AI for Good
Ethical AI with measurable benefits for society

Digital Transformation of the Year
Integrating systems and modernizing legacy technology

Women in Tech
Advancing women's inclusion and leadership in tech

DEADLINE: DECEMBER 1, 2026

How to nominate, how winners are selected and key dates are on the next page.

LOOKING AHEAD:
THE WITSA GLOBAL EXCELLENCE AWARDS 2027 — NOMINATIONS OPEN!

THE CHAIRMAN'S AWARD: THE BEST OF THE BEST

The Chairman's Award is not tied to a single category. The recipient is chosen from the entire pool of nominees across all 13 categories. The WITSA Awards Committee recommends candidates, and the final choice rests solely with the WITSA Chairman. It goes to the nomination that stands out even among exceptional entries.

HOW TO NOMINATE

1 · Choose your champions
Each WITSA member association may nominate up to three candidates in each category. Know a leader or organization who deserves the spotlight? Talk to your national WITSA member association.

2 · Complete the Nomination Form
Submit through the official Nomination Form.

3 · Make the case
Every nomination must include a statement that summarizes and justifies it, with emphasis on the scale and impact of the work or person. Nominations without it will not be considered.

4 · Submit by December 1, 2026
Nominations received after the deadline cannot be considered.

HOW WINNERS ARE SELECTED

An independent WITSA Awards Committee, chaired by the WITSA CEO and made up of experts from industry, government and academia, judges every nominee. Judges score each nominee from 1 (very poor) to 5 (excellent) on four weighted criteria, and the WITSA Secretariat ranks nominees by total score.

GLOBAL IMPACT / POTENTIAL	SCALABILITY	PROVEN SOLUTION	INNOVATIVE FEATURES
30%	30%	30%	10%

KEY DATES

SEPT 29, 2026	DEC 1, 2026	DEC 2, 2026	FEB 16, 2027
Nomination process begins	Deadline for nominations from member associations	Internal review and final judging begin	Awards ceremony, Rio de Janeiro

NOMINATE YOUR GLOBAL CHAMPIONS

Submit through the **official Nomination Form** by December 1, 2026.

FEATURE:
WCIT 2028
DURBAN, SOUTH AFRICA

Durban, South Africa, Wins the Bid to Host WCIT 2028, the 50th Anniversary Edition of WITSA's Flagship Congress

South Africa will host the world's technology leaders in 2028 as Innov8SA, the KwaZulu-Natal Convention Bureau, and the Durban International Convention Centre secure WCIT's 50th anniversary milestone and the first-ever WITSA gathering in Africa.

The World Innovation, Technology and Services Alliance (WITSA) has announced that Durban, South Africa, will host the 50th anniversary of the World Congress on Innovation and Technology (WCIT), WITSA's flagship platform. The winning bid was submitted jointly by Innov8SA, the Innovation and Digital Technology Association Southern Africa, the KwaZulu-Natal Convention Bureau and the Durban International Convention Centre.

Since its first edition in Barcelona in 1978, WCIT has convened technology leaders, industry associations and policymakers from around the world. Bringing the catalytic platform to South Africa reflects WITSA's commitment to extending the reach of the global technology conversation and to the role Africa will play in the next wave of innovation, entrepreneurship and inclusive growth.

Durban, on South Africa's Indian Ocean coast in KwaZulu-Natal, offers established conference infrastructure and a distinctive cultural and coastal setting for delegates.

WCIT

50

YEARS OF THE WORLD CONGRESS

WCIT 2028
Durban, South Africa

HOST CITY	EDITION	GATEWAY	DATES & VENUE
Durban, KwaZulu-Natal	50th anniversary of WCIT	1st time in African Continent	To be announced

MESSAGES FROM THE WITSA LEADERSHIP

"In the year we mark 50 years of WCIT, we are taking our flagship platform to South Africa, the first time we are holding a WITSA event on the African Continent. Durban offers a world-class setting and a committed delivery team in Innov8SA, the KwaZulu-Natal Convention Bureau and the Durban International Convention Centre, as well as a strong gateway for dialogue between South Africa and the world. I am confident that WCIT 2028 will be a milestone edition."

Dato' Dr. Sean Seah, Chairman of WITSA

FEATURE:
WCIT 2028 — DURBAN, SOUTH AFRICA

"Africa's digital leadership is central to the global innovation agenda. By bringing WCIT 2028 to Durban, WITSA is opening the doors of its global network to African governments, businesses and innovators, and giving the world a closer view of the talent and ideas emerging across the continent. This is an important moment for our members and for the Alliance as a whole."

Robert Janssen, Deputy Chairman of WITSA

"WCIT has always been about connecting people, ideas and markets. With Durban as host, the 50th anniversary of WCIT can turn that connection into lasting partnerships, investment and practical collaboration. We thank Innov8SA, the KwaZulu-Natal Convention Bureau and the Durban International Convention Centre for a compelling joint bid, and we look forward to working closely with all three, together with the local organizing committee and our partners in South Africa, to deliver an outstanding Congress."

Dato' Dan E. Khoo, Chief Executive Officer of WITSA

WHAT TO EXPECT IN DURBAN

WCIT 2028 will bring together technology leaders, industry associations, governments, investors and innovators from across the globe, with direct access to the decision-makers and ideas shaping the next era of technology. Beyond conventional information technology, the Congress is expected to explore the wider innovation agenda driving industrial and economic development, from artificial intelligence and advanced manufacturing to space and earth observation, cybersecurity and digital public infrastructure.

Five Decades, One Stage

WCIT 2028 will celebrate five decades the global tech platform and its contribution to the global technology community.

The Third WITSA Global AI Index

The Congress is expected to feature the anticipated launch of the third edition of the WITSA Global AI Index.

Global Excellence Champions

A tribute to the global champions of the WITSA Global Excellence Awards 2028 will place the best of the industry on one stage.

MORE THAN A CONGRESS

WCIT 2028 will also bring WITSA's dual approach to Durban. Through the WITSA Global AI Ecosystem Network (GAIN) and the WITSA Global AI Index, WITSA works with every host city to develop and measure its AI ecosystem. Combined with the reach of the Congress, this is designed to make WCIT 2028 a catalyst that links global technology leaders with African innovators, investors and institutions, and builds investment and collaboration that endure well after the event.

STAY TUNED FOR WCIT 2028

Further details on the program, dates, venue arrangements and opportunities to take part will be announced in the coming months. Follow **www.witsa.org** for updates.

LOOKING AHEAD:
WITSA WORLD CUP 2ND EDITION

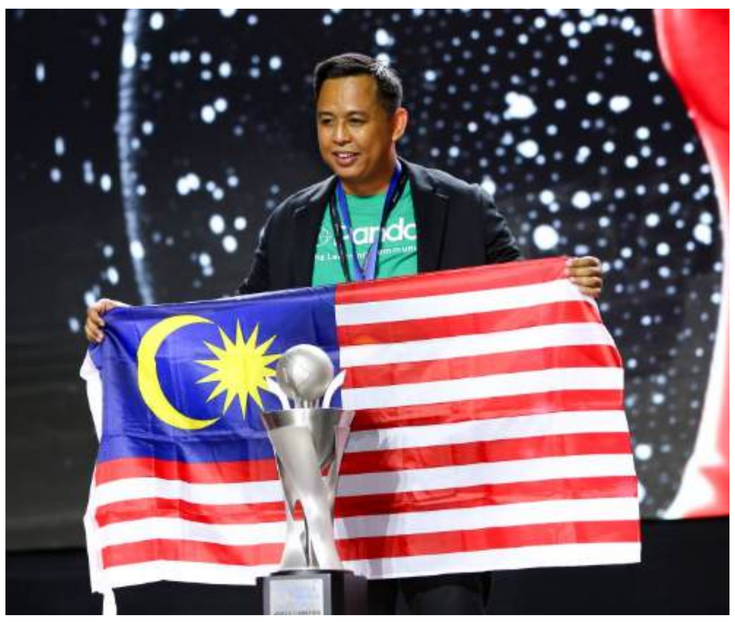
The 2nd Edition of the WITSA World Cup Global Pitching Tournament Gathers Momentum

www.witsa.org

The 2nd Edition of the WITSA World Cup Global Pitching Tournament is gaining momentum as WITSA member countries and economies pledge their participation in this unique global competition for technology scaleups.

Held under the theme "AI for a Better Tomorrow: Scaleup Solutions for Global Good," the tournament will bring together some of the world's most promising growth-stage companies to showcase innovative AI-driven solutions addressing global challenges.

A major milestone is approaching with the official group draw taking place at the WITSA Global AI Summit in Rio de Janeiro, where participating member countries and economies will learn their tournament matchups and begin the road to the 2027 finals.



Throughout 2027, nominated scaleups will compete in a series of online group-stage and knockout-round competitions before the leading contenders advance to the live finals at the WITSA Global AI Summit in Kuching, Malaysia, in October 2027.

Designed for scaleups with proven products and market traction, the tournament offers an international platform to accelerate growth, connect with investors and industry leaders, and gain global visibility. Competitors will be evaluated on innovation, scalability, market traction, and their contribution to Tech for Good, including social impact, ethical practices, and environmental sustainability.

Building on the success of the inaugural competition, which concluded at WCIT 2024 in Armenia, the WITSA World Cup offers participating scaleups a unique pathway to global expansion. The tournament provides visibility, access to international business opportunities, and direct connections to investors, customers, partners, and industry leaders across WITSA's global network.

WITSA encourages all member countries and economies to confirm their participation and nominate their most promising scaleups before the group draw in Rio de Janeiro. Don't miss the opportunity to compete on the world stage, foster international connections, and showcase AI solutions that create a better tomorrow.

For more information or to pledge participation, contact Emily Barner at emily@witsa.org.

WORLD CONGRESS ON INNOVATION AND TECHNOLOGY 2030

Fulfilling the Promise of the Digital, Innovation & Tech industry

www.witsa.org

WITSA is inviting bids to host the World Congress on Innovation and Technology (WCIT) 2030

Request for Proposals (RFP) to Host the World Congress on Innovation and Technology (WCIT) 2030

Since the first edition in Barcelona in 1978, the World Congress on Innovation and Technology (WCIT) has become WITSA's flagship global gathering. It brings heads of state, ministers, C-suite executives, investors and innovators together to shape the future of the digital economy. The Congress has travelled from Tokyo, Paris and Washington, D.C. to Taipei, Hyderabad, Kuala Lumpur and Yerevan. Recent editions have drawn 6,000 to more than 10,000 participants, and past stages have hosted speakers such as Bill Clinton, Bill Gates and Michael Dell.

WCIT marks its 50th anniversary in 2028, so WCIT 2030 will open the Congress's next half-century. WITSA now invites cities, governments and member associations to put forward a bid to host it. The successful host will get more than a world-class event. The 2030 package includes WITSA GAIN's four-phase programme (AI Maturity Assessment, Scenario Planning, AI Strategy and AI Action Plan), so the host can use the Congress as a catalyst for its national AI agenda.
The Request for Proposals, Expression of Interest form and Host FAQ are available now.
