"The training and time Arnoldo has put in have helped my company grow by providing natural stone polishing through the very simple and easy-to-use Bonastre system. Since Arnoldo trained my technicians, we have made at least $500,000 from polishing alone. Anytime we have encountered an issue, Arnoldo has always been there to help us navigate it and solve any problems that arise.
Arnoldo is a good man, an industry expert, and a great friend. I really appreciate everything he has done to grow my business and provide my clients with an amazing solution."
