association for PHYSICAL EDUCATION
Approved Curriculum Resource
2026 - 2028

Dear Ryan,

Thank you for your application for the Approved Curriculum Resource Accreditation.

The assessment panel has considered your application, together with the evidence provided, and are delighted to award your organisation the **Approved Curriculum Resource Accreditation**.

Your award is valid for two years, commencing **September 2026** and will be subject for renewal **September 2028**.

The assessor has highlighted the following reason for the award:

The Primary Gymnastics Academy provides schools with a resource that supports both teacher development and confidence in teaching gymnastics alongside pupil experiences from year 1 to year 6. The scheme is well structured so that prior knowledge is constantly being revisited and developed as new skills are learnt and is fully aligned to the National Curriculum. The Primary Gymnastics Academy scheme of work features a great breadth of core gymnastics skills, that can be seen in the high-level progression of skills document in addition to work on varied apparatus, including vaults, balances and beam work. This is a high-quality scheme and safety considerations have been carefully considered and applied to the resource. The scheme has been developed to ensure the 'whole child' move, think, feel and connect objectives are explicitly delivered and celebrated throughout.

You will receive a certificate, and your organisation will be listed on the afPE Approved Curriculum Resources webpage.

On behalf of the Association, I would like to offer you our congratulations.

Yours sincerely,

K. L. Thornton-Bousfield

Kate Thornton-Bousfield
afPE Chief Executive Officer
