

## BESPOKE PLANNER PARTNERS

To ensure the best possible experience throughout your planning process, on the day of your special event, and even afterwards, our team has established a list of Bespoke Planner Partners.

We recognize the pivotal role a skilled planner plays in the success of your event to assure a high level of service and attention to detail are met and therefore require you to select a planner from this carefully curated list. Each planner has been vetted by our management team and hand selected based on their experience at our family of venues, industry and client references, years in business, business offerings, and more. By selecting one of our Bespoke Planner Partners, you can rest assured that your vendor team will work seamlessly together to create an unforgettable event!
