Sterisol Sweden Soap Handwell

Properties

Sterisol Sweden Soap Handwell is a mild, fragrance-free liquid soap for hand washing in professional environments. The product cleanses hands effectively and is suitable for regular use wherever good hand hygiene is important.

The product is supplied in a 5-litre canister and is designed for dispensing from a 5-litre dispenser.

The soap is fragrance-free, free from colourants and effective even in hard and/or salt water. The product's pH value is approximately 7.

Field of Application

Sterisol Sweden Soap Handwell is suitable for hand washing in hygiene-critical environments where many people use the product regularly. It is particularly suitable for operations that require a mild, fragrance-free and practical soap in a larger packaging format.

The product can be used in healthcare, food handling, public facilities, workplaces and other environments where good hand hygiene and convenient dispensing are important.

Soap Handwell is designed for use in a 5-litre dispenser, making it a practical choice in high-use environments.

Ingredients

Aqua, Sodium Laureth Sulfate, Glycereth-2 Cocoate, Glycerin, Sodium Cocoamphoacetate, Sodium Chloride, Citric Acid, Phenoxyetanol, Benzoic Acid, Dihydroacetic Acid, Piroctone Olamine

How to use

1. Wet hands with lukewarm water.

2. Dispense soap and massage hands thoroughly until a lather forms. Do not forget the fingertips and the spaces between the fingers.

3. Rinse hands thoroughly under running water until all soap has been removed and the skin feels completely clean.

4. Dry hands completely with a paper towel. Avoid textile towels, as these quickly become unhygienic.

5. Turn off the tap using the paper towel to avoid recontamination. If needed, follow with a suitable hand cream to help strengthen the skin's natural barrier.
