STERISOL
Shampoo & Shower

Properties

Sterisol Shampoo & Shower is a versatile and gentle shower product with a light, pleasant fragrance. It has been specially developed to provide effective yet mild cleansing for the whole body, while also serving as a high-quality shampoo for normal hair.

The formula is designed to care for and preserve the natural balance of the skin and scalp, making it ideal for daily use. Thanks to the unique Sterisol System, the product is supplied in fully airtight pouches, eliminating the need for added preservatives.

Field of Application

Sterisol Shampoo & Shower is a mildly fragranced product developed to serve as an effective and caring shampoo, combined with a gentle shower gel for the whole body. It is ideal for environments where a complete and convenient hygiene solution is required, helping to preserve both the softness of the skin and the hair's natural shine.

By combining the properties of a professionally formulated shampoo and body wash, the hygiene routine is simplified without compromising on results. To ensure the unique hygiene benefits of the system and leak-free performance, the product should always be used together with the corresponding dispenser.

Sterisol System is designed to ensure the highest level of hygiene and minimal waste. Our dispensers are easy to install, simple to keep clean, and compatible with all products in our range. The system guarantees completely airtight storage of the contents right up until use.

Tests

The product has been dermatologically tested with excellent results. Irritation score: 0.

Environment

The system is designed for minimal resource consumption: a 700 ml pouch requires only 11 g of plastic, representing more than an **80% reduction** compared to a traditional bottle (70 g). With a discharge rate of up to 99%, both product waste and overall waste volume are minimized.

Ingredients

Aqua, Sodium Laureth Sulfate, Sodium Cocoamphoacetate, Glycerin, Sodium Chloride, Sodium Cocoyl Glutamate, C12-13 Alkyl Lactate, Citric Acid, Parfum, Guar Hydroxypropyltrimonium Chloride.

How to use

To help maintain a strong skin barrier and prevent dryness, a shower temperature close to body temperature, approximately 37°C, is recommended. A short shower of just a few minutes is sufficient for effective cleansing. Finish with cooler water to help the skin recover and preserve its natural moisture balance.

1. Wet hair and body thoroughly with water.

2. Turn off the water and massage Shampoo & Shower into both hair and skin.

3. Rinse thoroughly to remove all shower product, leaving the skin and hair clean and soft.

To ensure the system's unique hygiene benefits and leak-proof performance, Sterisol Shampoo & Shower should always be used with the corresponding dispenser from the Sterisol System.
