Pet Emergency & Disaster Preparedness

Pet Disaster Prep

This workbook contains everything you need to make an Emergency Plan for your pets. This Pet Emergency & Disaster Preparedness Workbook helps pet guardians plan for evacuation, shelter-in-place, and personal emergencies. It includes Ready-Kit checklists and forms for Advance Care Directive, Animal Emergency Plan, and tips for a pet emergency help network.

- Keep information updated!
- Give a copy to the people who care for your animals, if you are not able.

To use this Workbook, follow instructions on inside front cover.

Animal Emergency Action Plan & Advance Care Directive Forms

• **How to use them** • **Where to keep them**

For questions, more information, or to schedule a workshop, contact rescue@halterfund.org

This packet includes 2 forms: an Animal Emergency Action Plan and an Advance Care Directive. These are key tools to help your animals in an emergency.

After you fill out the Animal Emergency Plan form, you'll need to make several copies and keep it where you or someone caring for your animals can find and use it quickly.

- One copy goes with your personal documents in your "grab & go" binder, file or bag.
- Keep one copy in the house where a helper, responder, or pet-sitter can find it easily.
- Give a copy to all the people who might care for your animal(s) if you're not able to.
- Store it electronically along with your other important documents.

Advance Veterinary Care Directive Form

This form is on the back side of the Emergency Plan form. It provides your instructions for the care of your pet or other animals if you are not available.

- Keep a copy with your Emeegency Plan.
- Give a copy to your veterinarian.
- Give copies to the people who might care for your animals if you cannot.

TIPS

- Put copies of your Emergency Plan and Advance Care Directive in ziploc sandwich bag or clear envelope and attach to your refrigerator door, next to your own "File of Life" if you have one.
- Keep a card in your wallet with pet info on it.

IF YOU HAVE EQUINES or COMPANION LIVESTOCK

- If you have equines or companion livestock or poultry, put a binder or file with this information in a safe place in the barn, garage or outbuilding.
- If you board your horses, make sure the barn manager has this information.
- Keep a copy in your vehicle glove compartment.

ANIMAL EMERGENCY PLAN
For Pets, Equines, Backyard Livestock

Advance Health and Final Care or Pets

Top Tips to Keep Your Animals Safe in Emergencies & Disasters

- ✓ Be **personally** prepared.
- ✓ Have a plan for every type of emergency.
- ✓ Pack supplies for GO & STAY.
- ✓ Know how to get all local emergency alerts.
- ✓ Know the Evac Zone for every place your animals, family, and you might be.
- ✓ Know who and how to call for help when you cannot take your animals.
- ✓ Create a Buddy Network.
- ✓ Have a Weather Watch routine and practice with animals and helpers.
- ✓ Practicing can reduce stress! Practice in all kinds of conditions, and with your buddies and their animals.
- ✓ Practice loading pets into car, carriers, and walking on leash or harness.
- ✓ Can you get out of the house with your animals safely and quickly?
- ✓ Practice with your cane or walker, and with a buddy.
- ✓ Make plans together with your animal helpers and buddy network.
- ✓ Have multiple pet-friendly destinations, e.g. motels and AirBnB's, campgrounds, friends.
- ✓ Use Situational Awareness every day: Look Up! Look down! Look all around!
- ✓ Be the calm leader of your pack, flock, and neighborhood.
- ✓ Use apps as backup to Emergency Alerts: NOAA, Watch Duty, USGS, MyShake, AirNow or other AQ app.

Where To Get Info

- Local Emergency Alerts
- Local AM/FM radio, TV
- Weather radio
- Watch Duty app

Reunification Tips

- Microchip your pets, make sure registration is current.
- Add your contact info and name of your apartment complex or facility to your pet ID and carrier.
- Take photos of you with your animals.
- Record a video of their voice and/or special traits.
- License your dog.
- Register pets with Animal Control agency, where possible.

WHEN TO PREP and WHEN TO GO

Weather Alerts & Evacuation Alerts What's the Difference?

Weather Alerts are issued by the National Weather Service. They help Emergency Managers, firefighters, and us, plan and prepare for dangerous weather. Weather alerts provide forecasts for dangerous conditions such as storms, heat, cold, wind, flash flood, fire weather.

- **Weather Watch:** Conditions are right for potentially hazardous weather—get ready!
- **Weather Warning:** Dangerous conditions are likely to impact you soon—take immediate action!
- **Red Flag Warning:** Signals extreme fire danger.
- **Purple Flag:** Particularly dangerous fire conditions.

Evacuation Alerts are urgent notifications issued by local Emergency Services to alert residents in specific locations that they are in danger.

Evacuation Alerts vary from region to region. Be familiar with the levels of evacuation in your region.

Sign up for local Emergency alerts. If your region utilizes pre-identified Evacuation Zones and/or routes, know all those that are relevant to you, your family, and your animals.

✓ Get Evac-Ready on Weather Watch and Warning days so you'll be ready to GO if conditions change suddenly.

✓ If you are evacuating: Don't forget your pet!
Pets are often left waiting in their carriers. Before you leave: STOP, BREATHE, REVIEW YOUR CHECKLIST, LOOK AROUND.

When to PREP

- Weather **WATCH**: Practice and prep.
- Weather **WARNING**: Load go-bags, prep animals, confirm with helpers and destination, leave ASAP.

When to GO

- Be ready to **GO BEFORE** you get an Evac Warning.
- A Red Flag, Flash Flood Warning, or other severe weather warning means **GO ASAP!**

IF YOU CANNOT EVACUATE YOUR ANIMALS

Don't spend time searching for your pet or trying to find or catch your animals. If you can't evacuate your animal(s), stay calm, breathe, and get to safety.

- If you receive an Evacuation ORDER, your nearby "pet evac buddies" can help get your pets out, or post a "Pets Inside" sign on a window or door to alert Responders.
- Specialist responders may be activated to help pets and large animals.
- To request help animal owner or guardian must call the Animal Helpline or other contact provided in Emergency Alerts.
- Keep the numbers for your area in your Emergency Plan, or your phone, and in a notebook where you can find them quickly. (See yellow box below.)
- Inside an Evacuated Zone Animal Responders will do their best to check on animals, feed and water, evacuate if necessary until you are able to return home.
- Veterinary care may be provided for animals who are injured, sick, or have special needs.

EMERGENCY HELPLINE NUMBERS

Keep the relevant numbers with your other Emergency Contacts

CALL TO REQUEST ANIMAL SERVICES

- **County Animal Services** _____
- **Municipal Animal Services** _____
- **Local Animal Response Team** _____
- **Local large animal evac team** _____

Be ready to give calm, clear answers about your address, animals' descriptions, and other info the call-taker will ask for.

CALL 2-1-1 to Request an Interpreter or ask a question.

ANIMALS SHELTERED-IN-PLACE

When you can't evacuate your animals or you're sheltering in place with them.

You may need to evacuate yourself and leave your animals at home.

Or you may have to shelter-in-place at home with your animals after a storm, earthquake, during an extended power outage, or another emergency.

To prepare to keep your animals, and yourself, safe and well, it is important to have enough of the right supplies.

How Much Do You Need?

- Enough safe drinking water for at least one month.
- Water for hygiene.
- The goal is to have enough food, medications, sanitation, toys and treats for one month.
- PLUS, an extra dose of parasite control for each animal, and extra food if your animal has special needs.
- Safe ways to secure your animals.

If you must leave pets at home, and you have time to do these things **SAFELY:**

- Leave extra bowls of water and dry food.
- Hide a key.
- Close doors and windows, leave windows unlocked.
- Leave toilet lid up (only if you do not use automatic bowl cleaners!)
- Leave your Animal Emergency Plan, pet food, and meds where responders can find them, but animals cannot get into them. Tip: The dryer is a great place, or under a BBQ lid.

TIPS

- Form a buying group with neighbors or your evac buddies to purchase essentials in quantity.
- Identify locations for shared storage of large or bulky items, like food and kitty litter.
- Refresh or rotate supplies twice a year. A good time to do this is when the time changes.

HELP RESPONDERS HELP YOUR ANIMALS

Get accurate information about weather, evacuations, and other emergencies to help you and your animals stay safe.

✓Sign up for local Emergency Alerts.

✓Get, and use the Watch Duty App.

✓Use an emergency weather radio.

Your City, County or State Emergency Services agency may provide the opportunity to pre-register information about your pets and large animals. This information **speeds response and increases safety** in an emergency or disaster.

Contact Animal Control, local or regional Animal Response Team, (CART, DART or SART), or Dept. of Agriculture to find out if this service is available and how to register.

Smart911

If available in your community, your SMART911 profile can include pets and large animals. This info alerts responders to animals in your home or premises.

Put an **Animal Alert Sign** in a visible location for pets left behind.

If used where you live, hang the **Evacuation Tag** where it's visible from the street **when you leave** your home.

HIDE A KEY FOR RESPONDERS!

Plan Ahead for Power Outages

PETS & PEOPLE

- Create a home cooling station for pets & people.
- Remember: Kids, people with special needs, pug-nosed cats and dogs, rabbits, and birds are all especially vulnerable to heat.
- Know what to do for people dependent upon medical equipment.
- Stock up on meds & medical supplies.

EVERYONE

- Gas stations won't be open!
- EV charging won't be available.
- Stock up on fuel for generator.
- ATMs may not work; have cash on hand.
- Have good LED headlamps and laterns.

EQUINES & LIVESTOCK

- Automatic systems on PG&E will not function, including:
  - * Waterers
  - * Irrigation
  - * Fans & insect repellent dispensers
- Automatic security, gates, doors, alarms.
- Stable equipment: refigerators, sterilizers, washers, dryers.
- Fish pond aerators and filters.

WATER

Prepare for minimum of 7-10 days & high temperatures.

GALLONS REQUIRED PER DAY

People & Pets: 1-2

Equines: 15-20

Cattle: 9

Pigs: 2-4

Small Ruminants: 1

Poulty: 5 (per 100

Turkey: 12 (per 100)

COMMUNICATIONS

- Get a communications app or satellite phone.
- Have solar power source for charging cell phones, tablets, computers.
- Have extra batteries for everything!

GENERATOR SAFETY

- Does your permanent generator meet needs?
- Know the safety protocols for temporary generators!
- More info:
  - * **pge.com Generator Safety**
  - * **SafeElectricity.org**

HALTER Project
ANIMAL DISASTER PREPAREDNESS + RESPONSE
HALTERproject.org

FOOD SAFETY & WASTE MANAGEMENT

- Do you have an emergency plan?
- Will power outages impact your food storage, and/or waste management systems?
- Safe food storage... will you have enough capacity?

BIOSECURITY

- Be aware of current disease alerts and quarantines.
- Untrained helpers may unknowingly spread disease.
- Know how to contact authorized animal response resources.

PROPERTY ACCESS

- Know how to disable electric gates, garage doors, security systems.
- Have clearly marked entrance and signage throughout property.
- Provide access for emergency and evacuation vehicles, including: gates, trees, road and driveway conditions and adequate space for turnarounds.

DRINKING WATER SAFETY FOR PEOPLE & ANIMALS

During & after natural disasters your home, farm, or community water supply may be contaminated or unavailable
Ensure that your water is safe for drinking & hygiene
Germs and Chemicals may be in the water.
Listen to local officials to find out if your water is safe.

All water of uncertain purity should be treated before use.

You may be without a water supply unless you have prepared and stored water. The guidelines below explain what to do in a "boil water" emergency and how to store water and use it safely.

Use bottled water for drinking, cooking, and brushing teeth if possible.

If bottled water is not available, choose one of the following methods to make your water safe.

Water contaminated with harmful chemicals or toxins cannot be made safe by boiling, disinfecting, or filtering

BOIL

This method will kill bacteria, viruses, and parasites.

Boil your water for 1 minute.
At elevations above 6,500 feet, boil for 3 minutes. Let the water cool.

DISINFECT

This method will kill most viruses and bacteria.

PURIFICATION & FILTRATION:

Products such as purification tablets, lifestraws or similar devices

Storing Water Safely:

- Use the right container
- Keep the area clean & secure
- Sanitize before filling
- Start with a clean source

Tips for storing water from your home:

- Label container as "drinking water" and include storage date.
- Replace water every six months.
- Keep containers in a place with a cool temperature (50°F –70°F).
- Keep containers away from direct sunlight.
- Keep containers away from toxic substances, such as gasoline or pesticides.

WATER STORAGE & TRANSPORT

CHOOSE WHAT YOU CAN SAFELY CARRY & STORE

WATER: GALLONS REQUIRED PER DAY

Humans: 1.5 - 2	Equines: 15 - 20
Dogs: 1 oz. per pound	Cattle: 15 - 30
Cats: 5 - 10 oz	Pigs: 2 - 4
Birds: 5% of body weight	Small Ruminants: 1 - 2
Rabbits: 1.5 - 5 oz per 2 lbs. body weight	Poultry: 5 (per 100)
	Turkey: 12 (per 100)

Stores 20 gallons of water for up to 5 yrs

JerryCan 5 gallons

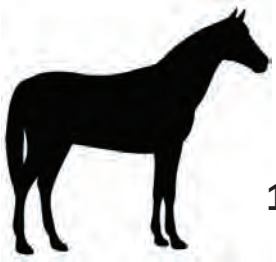

AquaBrick Water Food storage 3 Gallons

10,000 Gallon Capacity Water Storage Tank

PET & EQUINE VITAL SIGNS

- **Learn what's normal for YOUR animals.**
- **Vitals vary depending on animal's size, weight, age.**

	Temp.	Pulse	Beats / Mn.
	100.5 to 102.5	150 to 200	20 to 30
 <30 lbs.	100.2 to 102.8	60 to 160	20 to 30
	100.2 to 102.8	60 to 100	10 to 30
	99 to 101	28 to 44	10 to 24
	95.5 to 102.1	80 to 100	20 to 40

PET OWNER QUAKE & TSUNAMI SAFETY TIPS

DURING A QUAKE

- **If you are able Drop, Cover, Hold On!**
- **If you are not able to drop: stay put, and protect your head.**
- **Do not try to hold onto your pet.**

AFTER A QUAKE

- **Turn on your radio.**
- **Secure pets.**
- **Put collar/harness & leash on pet.**
- **Move to safest place in your home or outside.**
- **Clear floor of glass, wipe, or cover spills.**
- **Check home and barn for damage.**
- **Turn animals and livestock out in case of aftershocks or tsunami.**
- **Smell and listen for gas leaks.**
- **If you smell gas do not light a match, click on a flashlight, or flip on a switch.**
- **If you smell gas leave immediately.**
- **Check water supply.**

IF YOU ARE IN A TSUNAMI ZONE

- **Watch and listen for emergency alerts and instructions.**
- **Be ready to GO!**
- **Know your Tsunami Route and Rally Points.**

Ready-Kit Checklists for Cats, Dogs, & Other Pets

For a checklist for **YOUR** pet species, go to HALTERproject.org/checklists

WATER!
How much do I need for a day?

Humans: 1.5 – 2 gallons
Horses: 12 – 20 gallons
Dogs: 1 oz. per lb.
Cats: 5 -10 oz. per lb.
Small Ruminants: 1 – 2 gallons
Poultry: 1-2 gallons (per 12-20)

Basics

Refresh supplies twice a year.

- ✔ Water, food, meds, enough for:
  - * GO: 7-14 Days
  - * STAY: Min. of 1 month
  - * Parasite Control - plus one extra dose per animal.
- ✔ Use zip-lock bags for dry food.
- ✔ Pack small cans of wet food.
- ✔ Emergency water packets.
- ✔ Travel bowls, spoon, can opener, lid.
- ✔ Extra reflective collar, harness, leash and ID tags.
- ✔ Headlamp or flashlight with red mode.

Meds & First Aid

- ✔ Current prescription & dosage information.
- ✔ First Aid kit with tick remover, Bleed-Stop or styptic pencil.
- ✔ Packets of Manucca Honey or antibiotic silver-honey dressing.
- ✔ Bandages
- ✔ Paw ointment, Vaseline, Aquaphor.

Grooming & Hygiene

- ✔ Brushes and combs
- ✔ Saline solution or wipes for eyes, noses, ears.
- ✔ Pee pads, Poop bags.
- ✔ Disposable litter pan & litter.
- ✔ Pet-safe disinfectant.
- ✔ Unscented baby wipes.
- ✔ Sanitizer
- ✔ Disposable gloves
- ✔ Trash bags
- ✔ Anti-Bacterial soap

Comfort & Calm

- ✔ Fun stuff, toys, treats
- ✔ Bedding, blanket, sheet or towel for privacy.
- ✔ Cooling pads, ice packs
- ✔ Calming aids
- ✔ Thunder Shirt
- ✔ Large pillow case: good way to transfer cats, birds, reptiles, pocket pets into carriers.

A note about MUZZLES:
You may need to use one if your dog is not in a carrier and you are riding on public transportation or inside a human evac shelter.

Animal ID & Reunification

If you and your animals are separated, current ID, photos and videos will help you reconnect faster and more safely.

Microchipping is the BEST way to help you and your animals reconnect. Report your missing animal ASAP to local Animal Services. Post your info on local "Missing Animal" social media sites.

- ✔ Have multiple forms of ID: microchip plus visibile ID on all animals.
- ✔ Keep all forms of ID updated!
- ✔ Add extra collar, harness and leash with pet name and your contact info to emergency supplies.

Pet-Safe Sanitation, & Other Essentials

Ready-Kits should be easy to grab & go. Keep them where they are safe and accessible.

Long stay-at-home supplies should be stored in weather tight, insect and rodent-proof containers. Make sure you can get to them easily and safely. Flashlight, charger, radio, batteries.

PET-SAFE CLEANING PRODUCTS

- * Use unscented pet or baby-safe cleaning products.
- * Many essential oils are toxic to pets.
- * When using alcohol, bleach or hydrogen peroxide products, MUST allow to air-dry COMPLETELY before pet use.
- * Put newspapers under pee pads for extra cushion and easier cleanup.

Pet Carrier, Crate, and Car Safety

- ✔ Cats, small dogs, birds, reptiles and pocket pets should be secured in appropriate carriers or cages.
- ✔ Make sure carriers are secure. Check clips and bolts and add zipties where possible.
- ✔ Make sure pets cannot jump out of car windows or doors.
- ✔ Crates should be large enough for animals to stand up, lay down, and turn around.
- ✔ Covering pet carrier or crate will help them feel calmer and safer.
- ✔ Keep pets cool: ice packs, cooling pad, water spritz.
- ✔ Put your name, number, and address or your facility's name on the carrier.

HALTER Project.org

Personal Ready-Kit Essentials

Chose Items That Multitask

Many of the items you include in your personal Ready-Kit and first aid kit can also be used for your animals. Be sure to add items specific to the needs of your animals to ensure their health and safe sanitation.

- Wear boots or sturdy shoes, long pants & layers
- Cell phone, cables, chargers
- Underwear, socks, light warm layer
- Waterproof document wallet with important info
- Thumb drive w/critical docs
- Water, snacks, electrolyte packets
- Meds, eye & lip care
- Glasses, extra contacts
- Spare keys
- Small first aid kit
- PPE-M95 and N100 masks
- Eye protection: sunglasses, goggles
- Work & nitrile gloves
- Notebook, pens, pencils, Sharpie
- Purifier tabs or LifeStraw
- Cash in small bills
- Whistle
- Flashlight, batteries
- Headlamp with red light
- Fanny pack/sling bag
- Emergency blankets
- Poncho, rain gear
- Multi-tool
- Glowsticks, LED beacon
- Hi-viz safety vest
- Can opener
- Trash bags

Communication

- Comms devices, radio/satellite phone, chargers, cables. Make sure you have correct charging, cables, adapters for your current devices. Ensure lithium ion batteries and chargers are properly stored.
- Hand crank or solar radio/charger/light
- Radio, GPS locator, saletlitte communication communicator

Personal Hygiene

- TP, sanitizer, antibacterial soap
- Hygine wipes: Try to use eco-friendly wipes when possible.
- Unscented baby wipes and body wipes are generally safe for use on pets as well as humans.
- Water wipes and saline wipes are good for eyes, ears, noses, and paws.
- Dry wipes are essential for removing ash from animal fur and hair. Paper towels, cheese cloth, dish towells work well and are easy to pack.

American Red Cross

21 Weeks to Prepare

Week 1
Tour your home to gather items you already have. Place all items in a waterproof bag or container before packing in the kit. Check off each item as you go. _A sturdy, easy-to-carry container to hold items (backpack, duffle bag or large tote) _A set of clothes and sturdy shoes for each family member _Copies of important papers (birth certificates, ID, insurance policies, passports, home lease/deed, etc.) _A 3-day supply of your medications _A current list of family phone numbers and e-mails including someone who can be reached if local lines are down _A map (mark an evacuation route on it from your local area) _Extra cash in small bills _Spare keys for house and car _Spare glasses or contacts and solution _Books or toys

Week 2	Week 3	Week 4	Week 5	Week 6
_1 gallon water _1 jar of peanut butter _1 box crackers _2 boxes of energy bars _weather radio $1.75*	_1 gallon water _2 cans of meat/fish _2 cans of fruit/veggies _manual can opener _weather radio $1.75*	_1 gallon water _1 bottle juice _1 pkg hand sanitizer _1 antibacterial soap _weather radio $1.75*	_1 gallon water _1 liquid dish soap _2 rolls toilet paper _1 box facial tissues _weather radio $1.75*	_1 gallon water _first aid kit & guide _latex gloves _tweezers _weather radio $1.75*
Week 7	**Week 8**	**Week 9**	**Week 10**	**Week 11**
_thermometer _allergy/pain reliever in a childproof container _Sunscreen _weather radio $1.75*	_1 gallon water _femenine supplies _comb and brush _1 potted meat _weather radio $1.75*	_towel & washcloths _toothbrush & paste _shampoo, bar soap _deodorant _weather radio $1.75*	_umbrella/slicker _scarf _winter gloves _1 bottle juice _weather radio $1.75*	_1 gallon water _1 pkg energy snacks _emergency blanket _matches _weather radio $1.75*
Week 12	**Week 13**	**Week 14**	**Week 15**	**Week 16**
_flashlight _batteries _cotton rope _1 bottle juice _weather radio $1.75*	_1 gallon water _screwdriver _utility knife _pliers _weather radio $1.75*	_2 can fruit/veggies _1 pkg eating utensils _1 pkg plastic cups _paper towels/napkins _weather radio $1.75*	_pet food & dishes _extra water _leash _litter pan/litter _weather radio $1.75*	_1 gallon water _2 can meat/fish _cell phone & charger _dried fruits & nuts _weather radio $1.75*
Week 17	**Week 18**	**Week 19**	**Week 20**	**Week 21**
_1 gallon water _extra flashlight _extra batteries for radio & flashlight _1 bottle juice _weather radio $1.75*	_1 gallon water _work gloves _dust masks _chlorine bleach _garbage bags & ties _weather radio $1.75*	_1 gallon water _plastic sheeting _plastic bucket & lid _disinfectant _notepad and pen _weather radio $1.75*	_2 boxes dry cereal _box graham crackers _whistle _duct tape _1 pkg energy snacks _weather radio $1.75*	_comfort foods _scissors _extra blankets _small pillows _water container _weather radio $1.75*

*Save $1.75 a week and purchase your weather radio at the end of 21 weeks

Customize your kit for your family
For baby: baby food, formula, bottles, diapers, extra water, for formula and washing bottles
For Seniors: oxygen, walker, adult diapers, a hearing aid with extra batteries and extra medications
For Pets: carrier, medicines, inoculation and health records, ID tags, photo of you with your pet(s)
For Children: toys, travel games, extra batteries, stuffed animal, cards, crayons, paper, books

Daylight Savings time: When you change your clocks, check your kit! Replace expired food, medicine, and batteries. Check clothing for fit and seasons. Also, change smoke and carbon monoxide detector batteries.

For more preparedness tips, visit redcross.org.

Pet Evac Prep Checklist

When to PREP and When to GO

The time to PREP for possible evacuation or sheltering-in-place is when there's a Weather Watch or Warning.

These are the times to practice your plan with pets, family, neighbors, and your pet buddy network of helpers and destinations.

BONUS: If you're prepared for a natural disaster, you'll be ready in case of personal emergencies, too!

PREP for PETS & PEOPLE

- ☑ **Check all Go-Bags, Refresh if needed.**
- ☑ **Pack enough for 5-7 days, minimum.**
- ☑ **Practice with pets.**
- ☑ **Cash, eyeglasses, meds, chargers.**
- ☑ **Put all important personal & pet docs with Go-Bags.**
- ☑ **Put bags where you can pick them up quickly.**
- ☑ **Fuel your car.**

PREP for PETS

- ☑ **ID tags on all pets.**
- ☑ **Check in with your pet buddy network.**
- ☑ **Practice using harness, loading carrier, securing in car.**
- ☑ **Practice with others.**

On RED FLAG or FLOOD WARNING DAYS

This is the time to review your plan, confirm your destination, and GO, or be 100% READY to GO.

- ☑ **Keep your phone charged & on.**
- ☑ **Listen to radio & TV weather forecasts.**
- ☑ **Load Go-Bags into car.**
- ☑ **Keep meds, etc. cool and ready to go.**
- ☑ **Confine pets in a safe, secure place.**
- ☑ **Don't leave dogs tied outside.**
- ☑ **Leave extra water for outside cats.**
- ☑ **Confirm neighbor or Evac Buddy is ready to get your pet, if needed.**
- ☑ **Confirm that you have a place to go with your pets.**
- ☑ **Confirm that you have helpers and transportation.**
- ☑ **Check manual garage opener or park outside facing exit route.**
- ☑ **Plan to leave during daylight, if possible.**
