AERO CLEAN TOPCOAT 2D6500

Self-cleaning clear coat for rotor blades

PROTECTING YOUR PERFORMANCE

AERO CLEAN TOPCOAT

Clean blades.
More yield.

Self-cleaning effect

Up to 75 % less cleaning effort

Ideal finish on topcoat and LEP

Dirt, dust and deposits on rotor blades cost performance. Bergolin **Aero Clean Topcoat** is a colorless clear coat that **keeps your blades clean for longer**: water rolls off and **simply carries the dirt away**. Aerodynamics are maintained, cleaning intervals are extended and **maintenance costs go down**.

Let the rain do the cleaning

The **highly water- and dirt-repellent surface** gives deposits hardly any grip. Rain washes them away largely by itself, and stubborn residues come off with far less effort.

What makes Aero Clean stand out:

- Self-cleaning
- Dirt-repellent
- Ice-repellent
- Weather and UV stable
- Polishable and sandable

up to 75 %
less cleaning effort than standard topcoats

cleaner longer
thanks to a water- and dirt-repellent surface

no sanding
needed on topcoat and leading edge protection

At a glance

Product	Colorless, glossy 2K polyurethane clear coat
Use	Final finish on rotor blades, on topcoat or leading edge protection (LEP)
Effect	Self-cleaning, dirt- and ice-repellent
Durability	Weather and UV stable, protects against chalking and yellowing
Application	Spraying, quickly touch-dry
System	Combinable with the Bergolin wind power portfolio

For rotor blades

More efficiency, less effort

Your gain

More yield
Clean blades, full performance

Less upkeep
Longer intervals, lower costs

Less ice
Reduced ice adhesion

Laboratory-tested

Your benefits

- ✓ **Self-cleaning effect**: rain washes dirt away
- ✓ **Longer cleaning intervals** and lower maintenance costs
- ✓ **Less ice adhesion** and easier ice release
- ✓ **Lasting brilliance**: weather and UV resistant
- ✓ **Easy to integrate**: adheres to topcoat and LEP without sanding

Self-cleaning

Water rolls off in droplets, taking dust and dirt with it. The surface stays clean for longer.

Economical

Up to 75 % less cleaning effort in laboratory comparison: less downtime, lower costs.

System-proven

Excellent adhesion to Bergolin topcoat and LEP leading edge protection, even on aged coatings.
