

Why Do We Need To Verify Your Identity?

At UK Postbox security is our top priority. Our Know Your Customer (KYC) protocols are essential for regulatory compliance and to help create a secure environment, protecting our users against fraud, identity theft, and other forms of misuse. The process only takes a few minutes.

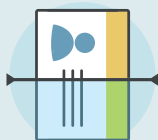

How Does the Identity Verification Work?

1. Identity Document

Ensure you have your ID available and be ready to take a Selfie

2. Upload Document

Scan your ID using your Mobile Phone or Desktop Webcam

3. Biometric Selfie Check

Take a Selfie using your Mobile Phone or Desktop Webcam

4. Address ID Upload

Upload a photo of your proof of address document

Using facial recognition technology, we accurately verify your identity against the document provided.

Documents must not include any trading name, alias, author name, pseudonym, or pen name
