

DESIGNED TO THRIVE IN A REGULATED WORLD

Regulated businesses shouldn't have to assemble and manage an increasingly complex mix of technology, security and compliance infrastructure just to operate.

Avatara brings those responsibilities together in one secure, fully managed operating environment — so organizations can focus on customers, growth and what comes next.

TECHNOLOGY

A fully managed information system designed to simplify the infrastructure underneath the business.

SECURITY

Integrated protection, monitoring and response built into the operating environment.

COMPLIANCE

A rigorous compliance foundation designed to reduce the burden of operating in regulated industries.

20+ YEARS.
HUNDREDS OF BUSINESSES.
ACROSS INDUSTRIES.

avatara

ONE OPERATING ENVIRONMENT.

Technology. Security. Compliance. Fully managed.

AVATARA CHANGES THE STARTING POINT

Instead of assembling technology, security and compliance around your business, start with the operating environment already in place.

ONE OPERATING ENVIRONMENT
Technology, security and compliance connected.

FULLY MANAGED
One accountable operating model.

SECURE BY DESIGN
Protection built into the environment.

COMPLIANCE FOUNDATION
Built on FedRAMP Moderate Equivalency.

PREDICTABLE
A simpler model for managing IT.

BUILT TO SCALE
Designed to grow with the business.

TRADITIONAL MODEL	AVATARA
Assemble infrastructure	Operating environment in place
Add security	Security built in
Integrate tools & vendors	One managed environment
Build compliance processes	Compliance foundation included
Manage it all	One accountable partner

REAL BUSINESSES. REAL RESULTS.
