CASE STUDY

# Heritage Financial Credit Union

**LOCATION -** Port Jervis, NY **COMPLETED -** 2026

**PROJECT TYPE -** Remote Canopies

## THE CHALLENGE

Heritage Financial Credit Union was entering Port Jervis and wanted a strong presence on the lot without a full branch build. The site needed a remote ATM that still read as a branded banking destination, day and night.

## THE SOLIDUS APPROACH

Solidus designed a remote ATM canopy that builds on Heritage's existing ATM family. Branding wraps the full canopy for a 360-degree visual, including a vertical pylon and an illuminated ATM bay, so the credit union projects from every vantage point on the lot.

## THE RESULT

Heritage announced the new ATM at 100 Pike Street in Port Jervis in September 2026, with 24/7 deposits and withdrawals.
