FGI Welcomes the California State Water Resources Control Board

The FGI is pleased to welcome its newest Government/Regulatory Member the California State Water Resources Control Board (State Water Board). The State Water Board and the nine Regional Water Quality Control Boards, collectively known as the California Water Boards, are dedicated to a single vision: preserve, enhance and protect water resources for beneficial uses to sustain California's future. The California Water Boards have regulatory responsibility for protecting the water quality of nearly 1.6 million acres of lakes, 1.3 million acres of bays and estuaries, 211,000 miles of rivers and streams, 1,100 miles of California coastline, and extensive groundwater resources. The State Water Board is located in Sacramento, California and their FGI liaison is Josh Munn, Engineering Geologist, who can be reached at joshua.munn@waterboards.ca.gov. Please help us welcome California State Water Board to the FGI!!!!
