**FGI Welcomes CGT**

The FGI is pleased to welcome its newest Manufacturer Member, Canadian General Tower (CGT). Since 1869, CGT has been one of the world's leading producers of polymeric coated fabrics and films for automotive and industrial applications in the global marketplace. CGT is a leading global supplier of primary and secondary containment films. CGT produces customizable PVC products, designed to withstand exposure to a variety of environmental conditions and fluids. CGT liners have been used successfully in a range of applications and projects including agriculture, aquaculture, potable water tank lining, mining evaporation ponds, landfill lining, chemical storage, chemical spill protection, wastewater and stormwater reservoirs and others. CGT is headquartered in Cambridge, Ontario, Canada and their FGI liaison is Balsam Ibrahim, Channel Manager, who can be reached at [balsam.ibrahim@cgtower.com](mailto:balsam.ibrahim@cgtower.com). Please help us welcome CGT to the FGI!!!
