

Memory of a Killer

Season 2

Memory of a Killer is a dramatic thriller inspired by the 2003 Belgian film *De Zaak Alzheimer* (La Memoire Du Tueur), centered on Angelo Doyle, a top NYC hitman secretly living a double life as a quiet father and salesman in sleepy upstate Cooperstown. When Angelo develops early onset Alzheimer's, the two lives he's carefully kept apart begin to collide.

When he learns his wife's recent death may not have been accidental, and his pregnant daughter is targeted, he's forced to look back at his violent past to protect his family. ***Memory of a Killer*** is a redemptive story about a man who is losing his memory but gaining a conscience. Because Angelo knows he must stop history from repeating itself and save his family - before he forgets the past.
