OTHER (Molds, thinfire, etc.)

<i>BE number</i>	<i>Description</i>	<i>Qty.</i>	<i>Comments</i>

Over for Order Information

Silo Order Information

- Place your order when we order and you get a 50% discount of Bullseye Volume discounted items. (Look for a blue V in the catalog.)
- Tekta is excluded. Our Takta prices are already reduced and as we have to order a crate at a time, it is NOT at 50% off.
- No minimum order. We will fill orders for full, half and 1/4 sheets of glass; sorry no 10x10's.
- Because shipping has increased dramatically, there will be a 5% shipping charge on your order (after the volume discount is applied) to help defray a portion of our shipping costs.
- As always, you can purchase glass from us anytime.
- We order glass from Bullseye four times per year. By ordering what you need when we order, it also helps us! Our stock of glass can remain stable rather than fluctuate, particularly on popular glasses, stringers, ribbons, and frit colors.
