RVR Consulting Group

Built for Growth. Ready for What's Next.

You've Built Something Real. Now Make It Scalable.

Successful companies hit the same ceiling: the owner is the center of gravity, the team is stretched thin, financial visibility is inconsistent. The business works—but it's not scaling the way it should.

That's where RVR steps in.

Who We Serve

Revenue: $10M–$100M+ | **EBITDA**: $1M+ | **Team**: 25+ employees

We partner with founders and CEOs who've built successful businesses but have outgrown their structure. You value trusted operators over traditional consultants. You want accountability and execution, not just advice.

Why Owners Call Us

"Everything still runs through me."

"My team works hard, but we are not aligned."

"We're growing, but the numbers aren't clear."

"I need someone who's actually been in this seat."

You want clarity, a plan, and a partner who can execute it.

Our Approach: Strategic Advisory Partnership

This is what sets RVR apart.

Unlike consultants who deliver reports and leave, we embed alongside your leadership team as an ongoing strategic partner.

Clarity

Clear goals, aligned expectations, shared priorities

Discipline

Monthly and quarterly leadership rhythm that creates traction

Execution

Hands-on support to move initiatives forward, not just strategy slides

This becomes the backbone of a healthier, more valuable business—one that's less dependent on you and more attractive to future buyers.

Start with Business Value Clarity (Complimentary)

The best first step for most owners.

Business Value Clarity is a high-level, operator-led snapshot designed to help you understand where your business stands today — and where to focusnext.

Through the process, you'll gain:

- **Industry & Market Insights**
  Perspective on how businesses like yours are being evaluated today and what buyers, investors, and lenders care about most and what is the industry short and long term outlook.
- **Guided Owner Self-Assessment**
  A structured review of financial visibility, operational effectiveness, leadership alignment, and owner dependency.
- **Value Indicators**

  An estimated range of enterprise value from a buyer's perspective, based on high-level drivers that may strengthen or reduce value.
- **Clear Next Steps**

  Practical recommendations to help you:

  - Strengthen key areas internally
  - Plan and prepare for growth or exit
  - Pursue a deeper Business Assessment
  - Engage in ongoing Strategic Advisory Many

  Strategic advisory engagements begin here.

Additional Services

Consulting Projects — Operational redesign, accountability systems, financial clarity, margin optimization

Fractional & Interim Leadership — COO, CFO, CRO, and CMO support without full-time overhead

M&A Support — Readiness assessments, diligence support, transaction guidance, post-close integration

Reporting & Analytics — KPI dashboards, forecasting, board-ready reporting

Why Companies Choose RVR

- We're advisors who've been owners — We understand the pressure and opportunity
- Direction + execution — You get a partner who helps you put it in motion
- Accountability that sticks — Weekly execution, monthly strategy, quarterly planning
- Informed by value creation — Every improvement strengthens the business

Our clients typically see: Improved performance, stronger alignment, increased enterprise value, reduced owner dependency, and a clear path forward.

Let's Talk.

Most engagements start with a simple conversation—breakfast, coffee, or lunch—where you can speak openly about what's working, what isn't, and what you want next.
