TERMS AND CONDITIONS FOR THE USE OF DISCOUNT CODES OF WEB3 TECHNOLOGY B.V.

These Terms and Conditions set out the terms and rules for the use by Users of Discount Codes made available by WEB3 Technology B.V. (the "**Terms**"), in particular the rules for obtaining and using the Discount and the cases in which the Discount is not granted or may be subject to adjustment.

§ 1. General Provisions

1. The organizer of the promotions covered by the Terms is **WEB3 Technology B.V.**, with its registered office at Prins Hendrikkade 21E, 1012 TL Amsterdam, the Netherlands, registered with the Dutch Chamber of Commerce under number 95206604 (the "**Company**"). The Company holds an authorization from the Dutch Authority for the Financial Markets (Autoriteit Financiële Markten, the "**AFM**") as a crypto-asset service provider under Regulation (EU) 2023/1114 of the European Parliament and of the Council on markets in crypto-assets (MiCA), under authorization number 41000022.
2. The Terms supplement the Company's Terms of Service currently in force (the "**User Agreement**"), available on the Company's website. The use of a Discount Code does not change the rules for the provision of services set out in the User Agreement, except for the reduction of a specific fee in accordance with the Terms and the Code Terms.
3. In matters not governed by the Terms, the relevant provisions of the User Agreement shall apply. In the event of any conflict between the Terms and the User Agreement, the User Agreement shall prevail, unless the Terms expressly provide otherwise.
4. The use of a Discount Code is voluntary and is not a condition for using the Company's services.
5. The Terms are made available to the User on the Company's website in a form that allows them to be obtained, reproduced and stored. The User accepts the Terms by entering the code and provided with a hyperlink to the Terms.

§ 2. Definitions

1. Whenever the following terms are used in the Terms, they shall have the following meanings:
    a. **Discount Code** – a code made available or approved by the Company, the correct use of which by the User entitles the User to obtain the Discount on the terms set out in the Terms and the Code Terms.
    b. **Partner** – an entity authorized by WEB3 to make the Discount Code available as part of marketing or promotional activities.
    c. **Promotion** – a promotional campaign under which the User may use the Discount Code and obtain the Discount upon meeting the conditions applicable to the given Promotion.
    d. **Discount** – a reduction of a specific fee payable to the Company in connection with a Transaction, in the amount and on the terms set out in the Code Terms;
    e. **Code Terms** – information on the rules for using a specific Discount Code, covering in particular the amount of the Discount, the validity period of the Code, the type of Users eligible to use the Discount Code, the minimum

Transaction value, the required actions or other conditions that must be met to obtain the Discount, as determined by the Company, including those resulting from the structure of the Discount Code set out in § 5(3).

f. **User Agreement** – the Terms of Service for crypto-asset services currently in force, available on the Company's website.
g. **User** – a natural person, including a natural person using the Services in connection with their business activity, a legal person or another entity entitled to use the Services in accordance with the User Agreement.
h. **Transaction** – a crypto-asset exchange transaction carried out by the Company on the terms set out in the User Agreement, to which the Discount may be applied in accordance with the Code Terms.

2. All capitalized terms not otherwise defined in the Terms shall have the meanings given to them in the User Agreement.

§ 3. Conditions for Using the Discount Code

1. The Discount Code may be used by a User who meets the conditions for using the Company's services set out in the User Agreement and the conditions applicable to the specific Discount Code. Receiving, holding or entering a Discount Code does not guarantee the right to the Discount if the User does not meet the requirements set out in the Terms, the Code Terms or the User Agreement.
2. The Discount Code Terms are made available to the User together with the Terms before the Discount Code is used, in a manner that allows the User to read them before making a Transaction. Information about the Discount Code may additionally be provided in materials, communications or publications relating to the given Promotion.
3. The Discount Code must be entered in the field provided for this purpose when making the Transaction and before its final confirmation. If the Discount Code is valid, remains active and the User meets the applicable Code Terms, the Discount is reflected in the Transaction summary before its confirmation.
4. The User may use different Discount Codes for subsequent Transactions, provided that the User meets the conditions applicable to the specific Code each time.
5. Discount Codes cannot be combined with one another or with any other promotion relating to the same fee or commission, unless the terms of the given Promotion expressly provide otherwise.
6. Before confirming a Transaction, the User is obliged to check the Transaction terms presented, including the amount of the fee payable and the Discount applied. If the Code has not been accepted or the Discount has not been applied, the User should refrain from confirming the Transaction. Entering a Discount Code after the Transaction has been confirmed does not entitle the User to have the Discount applied retroactively.
7. The Discount Code is not a means of payment, electronic money, a crypto-asset or a separate property right. It cannot be exchanged for funds, crypto-assets or any other benefit, nor paid out in cash.

§ 4. Discount and Its Calculation

1. The amount of the Discount and the method of its calculation are set out in the Code Terms.

2. Discount Codes may provide for different Discount amounts, different validity periods and different eligibility conditions for the Promotion. Discount Codes on different terms may be made available at the same time.
3. The Discount applies only to the fee specified in the Code Terms. Application of the Discount does not mean that the Transaction is free of charge. Before confirming the Transaction, the User receives information on the applicable exchange rate, fees, Discount and the final terms of the Transaction.
4. If a minimum Transaction value has been set for a specific Discount Code, the Discount will be applied only if the Transaction value meets that threshold and the other Code Terms. The minimum value resulting from the Promotion is independent of any other minimum or maximum Transaction limits applied by the Company.
5. A change to the Code Terms or the end of the Promotion does not affect a Discount correctly applied to a Transaction confirmed before such change takes effect, except where an adjustment results from an obvious error, abuse or applicable law.

§ 5. Discount Code Terms

1. The Discount Code Terms are set or approved by the Company. The Partner is not entitled to change the Discount Code Terms on its own.
2. The Discount Code is made available to Users by the Company or by the Partner through the communication channels used by the given Partner. The group of recipients of a given Discount Code results from the Partner's channel through which the Discount Code is made available. Materials containing the Discount Code require the Company's approval before publication.
3. Each Discount Code consists of eight characters, which may only be capital letters of the Latin alphabet (A–Z) or digits (0–9), without special characters. The Code Terms concerning the usage limit and the amount of the Discount result directly from the structure of the Discount Code, as follows: (a) character 1 – the letter "C"; (b) character 2 – the total limit of uses of the Discount Code by different Users: "1" – no total limit, "V" – 5 uses, "X" – 10 uses, "L" – 50 uses, "C" – 100 uses, "D" – 500 uses, "M" – 1,000 uses; once the limit is reached, the Discount Code expires; (c) characters 3–6 – the unique identifier of the Partner or of the Promotion; (d) characters 7–8 – two digits specifying the amount of the Discount in tenths of a percentage point by which the rate of the fee payable to the Company for the Transaction is reduced (e.g. "03" – 0.3 percentage points, "05" – 0.5 percentage points, "10" – 1.0 percentage point). For example, the Discount Code "C1KUBA03" may be used by an unlimited number of Users, each of them once, and entitles each of them to a Discount of 0.3 percentage points.
4. The Company may make available new Discount Codes whose structure complies with paragraph 3, and doing so does not require an amendment to the Terms. Any change to the rules set out in paragraph 3, including the catalogue of values of character 2 and characters 7–8, shall be made in accordance with § 9.
5. All Users who meet the conditions for using the Company's services set out in the User Agreement may use the Discount Code, and not only new Users.
6. A User who meets the Code Terms is entitled to a Discount in the amount resulting from characters 7–8 of the Discount Code in accordance with paragraph 3. The Discount reduces only the fee payable to the Company for the Transaction, does not cover the costs of the selected payment method..

7. The Discount may be applied to the Transaction in which the Discount Code was correctly entered, provided that the Transaction meets the Code Terms.
8. No minimum Transaction value is set for any Discount Code; the Discount applies regardless of the Transaction amount.
9. The Discount Code may be used by a single User only once, regardless of the total usage limit of the Discount Code resulting from paragraph 3.
10. The Company may deactivate any Discount Code at any time, including a Discount Code that has already been published, if the marketing activities under which the Discount Code was created have ended. A Discount Code with a limited total number of uses (character 2 other than “1”) shall not be deactivated before that limit has been exhausted, without prejudice to the Company’s rights under § 7 and § 9(1)(a)–(d). Deactivation of a Discount Code does not affect a Discount correctly applied to a Transaction confirmed before the deactivation.

§ 6. The Partner and Its Role

1. The Discount Code may be made available to the User directly by the Company or by the Partner.
2. Making the Discount Code available does not mean that the Partner is a representative, attorney or agent of the Company or that it is authorized to act on its behalf, unless a separate authorization expressly provides otherwise. In particular, the Partner is not authorized, on behalf of the Company, to verify the User, perform AML/CFT activities, accept funds or crypto-assets from the User, set individual Transaction terms or give binding assurances regarding the future result or profitability of a Transaction. The Partner’s role is limited to marketing activities related to making the Discount Code available.
3. The Partner is obliged to communicate the Code Terms in accordance with the information provided by the Company. The Company is not bound by any changes, additions, promises or assurances of the Partner that do not result from the Code Terms. The Company is not liable for any independent, unauthorized changes, additions or assurances communicated by the Partner that go beyond the Code Terms made available.
4. In the event of any discrepancy between the information provided to the User by the Partner and the Terms, including the Code Terms, the Code Terms shall apply.

§ 7. Prohibited Use of the Discount Code

1. The User should use the Discount Code in accordance with its intended purpose and the Code Terms. It is prohibited to take any action aimed at obtaining the Discount in breach of the Promotion terms, artificially increasing the number of uses of the Discount Code or obtaining a benefit to which the User is not entitled.
2. The following may in particular be considered abuse:
    a. knowingly exploiting a technical error resulting in a Discount being calculated in an amount or number greater than that resulting from the Code Terms;
    b. using the Code in a manner intended to circumvent limits or other Promotion terms.
3. If the Company has reasonable grounds to suspect abuse, it may refuse to apply the Discount, temporarily suspend its application for the period necessary to clarify the circumstances or make an appropriate adjustment, taking into account the User’s rights under generally applicable law.

4. If an incorrect Discount has been applied solely as a result of an obvious technical error, the Company may correct the result of such error to the extent permitted by law and taking into account the status of execution of the Transaction.
5. The rights set out in this paragraph are without prejudice to the measures that the Company may apply under the User Agreement in the event of fraud, breach of law, technical failure, security breach or other activities inconsistent with the rules for using the Services.

§ 8. Failures and Technical Irregularities

1. The Company takes reasonable steps to ensure the proper functioning of the Discount Code mechanism. However, temporary interruptions, delays or errors cannot be ruled out, resulting in particular from technical work, updates, system failures, problems with the infrastructure of third-party providers or other events affecting the operation of the Services.
2. If a technical error prevents the User from applying an active Discount Code before confirming a Transaction, the User may report this to the Company in accordance with these Terms.

§ 9. Changes to and Termination of the Promotion

1. The Company may amend the Terms or the Code Terms, suspend a given Discount Code or terminate the Promotion if this is justified in particular by:
    a. a change in law or regulatory requirements;
    b. the need to ensure security or prevent abuse;
    c. a change in the manner of providing the Services or technical or operational changes;
    d. the need to ensure that the Company's activities comply with applicable law, compliance requirements or risk management rules; or
    e. another legitimate business need.
2. If an amendment to the Terms has a material impact on the User's rights or obligations, the Company will notify the User of it at least 30 days before its effective date. Information about the amendment may be provided in particular via the website, the User Profile, e-mail, the mobile application or another communication channel used by the Company.
3. Changes required by generally applicable law, regulatory requirements, security considerations, the need to prevent abuse or other material operational needs may take effect immediately.
4. An amendment to the Terms or the Code Terms or the termination of the Promotion does not affect a Discount correctly applied to a Transaction confirmed before the given change takes effect, except where an adjustment results from an obvious error, abuse or generally applicable law.
5. The current version of the Terms is made available on the Company's website together with its effective date.

§ 10. Complaints

1. A User who believes that the Discount has been applied incorrectly may submit a complaint to the Company in accordance with the Complaints Handling Procedure currently in force, available on the Company's website.

2. The complaint should contain information enabling identification of the User, the Transaction and the Discount Code to which it relates, as well as a description of the circumstances enabling it to be considered.
3. The Company may request additional information necessary to clarify the matter.
4. Submitting a complaint does not limit the User's rights under generally applicable law or the possibility of contacting the competent supervisory authority. The User Agreement provides for a separate Complaints Handling Procedure and the possibility of submitting complaints regarding any matters related to the User's relationship with the Company.

§ 11. Personal Data

1. The controller of the User's personal data processed in connection with the use of the Services, the execution of Transactions and the handling of Discount Codes is the Company. Detailed information on the rules for processing personal data, data recipients, retention periods and the User's rights can be found in the Privacy Policy (https://cdn.prod.website-files.com/6a1433d84d3e0215105ce710/6a3a87e538b003c355b1d414_Polityka_Prywatnosci.pdf). In connection with the use of a Discount Code, the Company may process information about the Discount Code used, the related Promotion and the Transaction, to the extent necessary to apply the Discount, operate the affiliate program, ensure its proper functioning, prevent abuse and handle complaints.

§ 12. Liability and Nature of Code-Related Information

1. The Discount Code and the information published in connection with making it available are promotional in nature and do not constitute an investment recommendation, investment advice, advice on crypto-assets or a personalized recommendation to enter into a Transaction. In accordance with the User Agreement, the Company does not provide investment advice or personalized recommendations regarding crypto-assets or Transactions.
2. The decision to enter into a Transaction remains the User's decision. The Discount resulting from the Discount Code should not be treated as an assurance regarding the future value of a crypto-asset, the security of the Transaction or the possibility of making a profit.
3. No provision of the Terms limits the Company's liability or the User's rights to the extent that, under applicable law, such liability or rights cannot be excluded or limited.

§ 13. Governing Law and Final Provisions

1. The Terms and the legal relationship arising from the use of the Discount Code are governed by Dutch law, in accordance with the rules adopted in the User Agreement.
2. If the User is a consumer, the choice of Dutch law does not deprive the User of the protection afforded by the mandatory provisions of the law of the country of the User's habitual residence.
3. For Users who are not consumers, jurisdiction of the courts is determined in accordance with the User Agreement. In this respect, the User Agreement provides for the jurisdiction of the courts in Amsterdam. For consumers, mandatory jurisdiction rules apply, and the Terms do not limit the consumer's right to pursue claims before the court having jurisdiction under such rules.

4. No provision of the Terms limits the User’s right to submit a complaint to the AFM or another competent authority or to exercise other rights available to the User under applicable law.
5. If any provision of the Terms proves to be invalid, ineffective or unenforceable, this shall not affect the validity of the remaining provisions. In such a case, the relevant provision should be interpreted and, if necessary, replaced in a manner as close as possible to its original purpose and in compliance with applicable law.
6. The Terms entered into force on **02.11.2026**.
