FOR TRADE UNIONS

# Template motion for trade union affiliation

Better! knows that trades unions are crucial to the effort in promoting a new vision for our politics. If you would like to encourage your national union to affiliate to the Better! Coalition and help us build that vision, please let us know how we might help you to do that. In the meantime, we have produced a template motion which you are free to adapt:

## This conference notes:

- The interests of our members, inside and outside the workplace, are being damaged by a rigged political system that does not serve them or their communities.
- The operation of our politics: votes, taxes and media, are set up to serve the rich and powerful.
- This holds back progress on workers' rights, decent jobs and well-funded public services.

## This conference believes:

- If we take control of these three things, we can start to change everything.
- With an honest media, a just tax system and votes that truly count, we can advance the interests of our members and their communities.

## This conference resolves:

1. To affiliate to the Better! coalition on media, tax and votes.
2. To distribute Better! materials and campaign actions.
3. To notify Better! of our decision by emailing **info@compassonline.org.uk**.
