SEE REVERSE SIDE FOR WRITTEN CONNECTION INSTRUCTIONS

Follow these steps to start using your Trailer Diagnostic Adapter:

1. Close all other running applications
2. Users can download adapter drivers online by visiting: **www.noregon.com/adapter-drivers** and clicking the "**Instructions and Driver Download**" button from the **Trailer Diagnostic Adapter section** on the adapter drivers landing page. Once the download is complete, launch the installer and follow the prompts.
3. Connect the J560 T-Connector (P/N: 32111) to the adapter.
4. Connect the USB cable to the computer.
5. Connect the J560 T-Connector to the trailer.

To Power your Trailer Diagnostic Adapter:

6. A) ***If powering the Trailer Diagnostic Adapter from the truck:***
    1. Connect the Tractor's 7-pin connector to the J560 T-Connector Cable.
    2. Turn on the ignition.

OR

6. B) ***If powering the Trailer Diagnostic Adapter from a battery:***
    1. Connect male end of the J560 T-Connector Cable to the female end of the J560 Power Adapter Cable (PN: 121003)
    2. Connect the Black (-) Power Adapter alligator clip to the Negative (-) battery terminal & connect the Red (+) Power Adapter alligator clip to the Positive (+) battery terminal.
7. Connect the USB cable to the adapter.
8. **Installing Hardware If you are using Windows 7 or newer:**
    a. Windows will automatically connect to the adapter. You may see an update message in the systems icons section of the taskbar.
    b. You are now ready to use your adapter!
