About the event

The **Disability Dialogue** wants you to come to a talk.

The Disability Dialogue is a group led by people with disability.

The Disability Dialogue brings people together to talk about the things that are important for people with disability.

The Disability Dialogue runs events and projects where people can ask questions and say what they think.

The talk is about what the Disability Dialogue has learnt from **Feature Dialogues** in 2026.

Feature Dialogues are projects run by the Disability Dialogue.

Each Feature Dialogue looks at a problem people with disability have had for a long time.

Each Feature Dialogue brings people with disability together to find ideas to fix the problem.

There were 4 Feature Dialogues in 2026.

Feature Dialogue 1 was on general **foundational supports.**

Foundational supports are disability supports that are outside the **National Disability Insurance Scheme**.

The National Disability Insurance Scheme gives some people with disability help to get the support and services they need.
We say NDIS for short.

Feature Dialogue 2 was on targeted foundational supports for children with disability and their families.

The Feature Dialogue looked at supports that fit what children and families need.

Feature Dialogue 3 was on **Supported Independent Living.**

Supported Independent Living is a type of housing where a person with disability always has a support worker with them.

The Feature Dialogue looked at how Supported Independent Living works for people with intellectual disability.

Feature Dialogue 4 was on good **community support** for people with an intellectual disability.

Community support is support that helps people with disability take part in their community.

The Feature Dialogue looked at what community support is good and what would be good in future.

Speakers will also talk about a Disability Dialogue survey.

The survey is about how NDIS changes affect people with disability and their families.

The talk will happen on Wednesday 25 November.
